

Get-Out-Vote Drive Is Set by C. of C.

Hope Chamber of Commerce planned a get-out-the-vote campaign for next Tuesday's county-wide bond election on the Delight Egg Farms, Inc., project, at a meeting at 10 o'clock this morning in the Diamond Cafe banquet room.

Community contact leaders were named to talk to people throughout the county, and chairmen were picked to direct a telephone appeal to householders, along with committees to arrange for cars to take people to the polls next Tuesday.

The meeting was opened by W. R. Caldwell, president of the Chamber who then turned the program over to Franklin McLarty, president of the Hempstead County Industrial Foundation, sponsor of the egg-processing plant proposal.

3 Vital Points
Roy Anderson told the membership group it was vital that the people be fully informed on these points:

1. That they must vote for or against the bonds and the tax as a unit. A vote for or against the bonds, without also marking the tax item, is worthless. He pointed out that in the county hospital bond election of a few years ago some people voted for the bonds but against the supporting tax — which simply meant they might as well have stayed at home.

2. The election is to authorize a 2-mill tax support servicing of the bond issue, but the tax would never be levied unless Delight Egg Farms, Inc., defaulted. Under the proposed contract Delight gets \$225,000 of bond proceeds and repays it at the rate of \$15,000 a year for 15 years. In the election the bond figure appears as \$245,000 — but the extra \$20,000 is retained as a reserve to service the bonds one year in case of a temporary default, and it costs the county nothing in any event because it will be invested at a rate higher than the bond interest.

3. Although the taxpayer won't be out a penny unless there is a default he should figure out his possible cost if the worst comes to pass. The average rural assessment in Hempstead County is said to be \$300. A 2-mill tax therefore would cost the average rural citizen 60¢ a year. Hope, with the big end of the assessments, would stand the greatest risk — and can afford it.

A. H. Washburn reminded the membership group that time grows short for the argumentative part of the bond election campaign, and from now on every effort should be concentrated on a get-out-the-vote drive for next Monday afternoon and Tuesday morning.

He said the biggest job in any campaign is to overcome the inertia of citizens and get them down to the polling places. He cited the case of last summer's state-wide bond election for the colleges, when the public school teachers and the public in general beat off an attempt to unload a huge debt and future tax on the citizens. The editor said the anti-bond forces were running lengthy arguments too late in the campaign, and he telephoned Joshua Shepherd, Little Rock state chairman, and contributed \$500 personally, which Shepherd's forces matched, for a state-wide radio get-out-the-vote appeal. He said it was effective.

Board Takes Up Racial Suit

LITTLE ROCK (AP)—The Little Rock City Manager Board took official notice of a law suit seeking desegregation of all public recreational facilities in the city, then turned the matter over to City Attorney Joseph Kemp.

Wednesday marked the first meeting of the board since 22 Negro residents filed March 8 in federal District Court.

A statement issued by the board which has until March 23 to reply to the suit, said the group would seek solutions to the problems presented "cautiously, deliberately and prayerfully."

Contacts Named

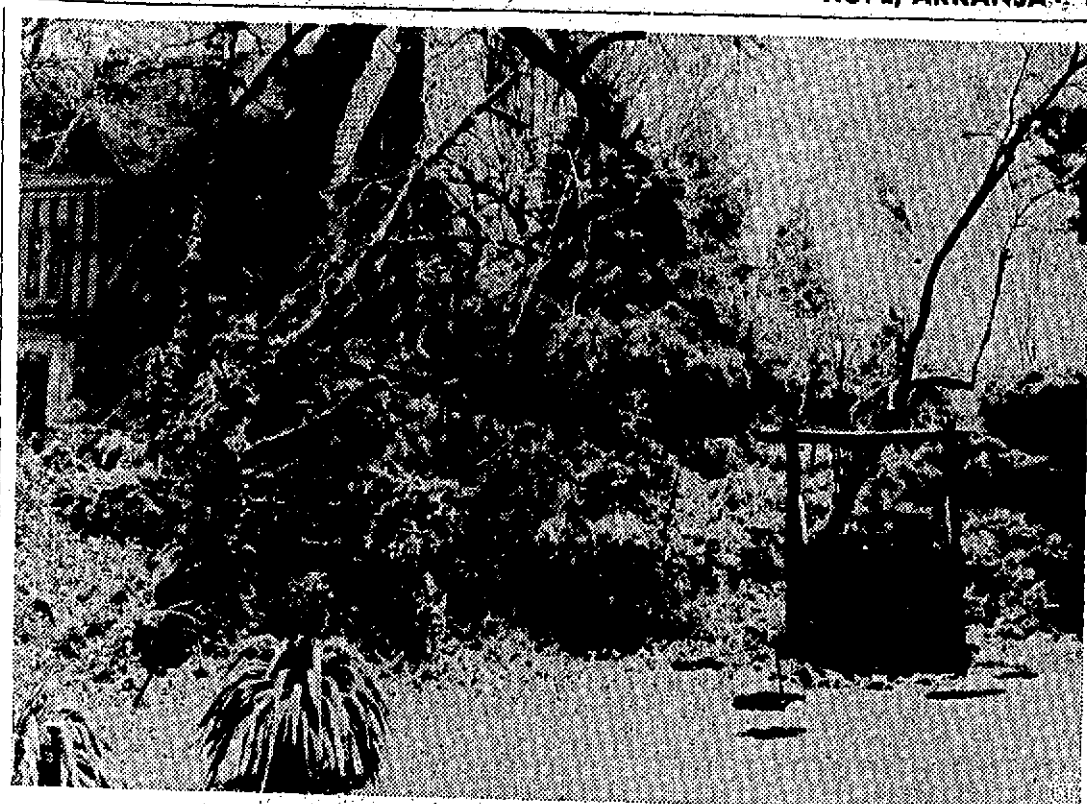

Mr. McLarty reported that a committee also was appointed to make sure that folks who planned to be out of town next Tuesday voted absentee ballots in advance. Absentee voters must obtain and cast their ballots at the county clerk's office in the courthouse — and of course all such ballots must be on record before election day.

Community chairmen for contacts out in the county were named this morning as follows:

Columbus and Cross Roads — Arch Wylie & Jim James
Pulaski — Ray Turner
Palmas — Kelly Walton
Washington — Leonard Ellis
Emmett — George Frazier
Quernsey — Benny Coleman & Dean Murphy
Spring Hill — Ed Thrash
Shover Springs — Ralph Montgomery & Herbert Burns
Oakhaven — Jack Love, Wayne Russell & Bill Watson
Blevins, DeAnn & Sweet Home — Frank McLarty & Bill Caldwell.

Brother-in-Law of Hope Woman Dies

J. H. Grover, aged 50, died in Guthrie, Oklahoma, Wednesday. Survivors include his wife, Mrs. Hazel Grover, one daughter, Gretchen Ann of Guthrie. Funeral services will be in Guthrie Saturday morning. He is the brother-in-law of Mrs. C. F. Baker of Hope.

WINTER'S BACK — A LATE WINTER snowstorm painted a 700-mile long white picture from El Paso to Texarkana, with spring less than a week away by the calendar. Most of the snow melted as fast as it fell, but some west Texas sections reported up to seven inches where it fell faster than it could melt. The snow painted Christmas-like scenes such as the one shown in Dallas. — NEA Telephoto

Right-of-Way Case Before High Court

LITTLE ROCK (AP)—The Highway Department asked the Arkansas Supreme Court Wednesday to reconsider a decision the department says could adversely affect 90 per cent of its right-of-way purchases.

The court ruled a 27-year-old county court order could not be used for taking 10 feet of right of way for a Highway 10 widening project in Pulaski County.

Dowell Anders, Highway Department attorney, said in a petition for rehearing that the court had made no distinction between the rights of a person who owned the land when it was taken by a county court for highway construction and a person who bought it later.

"Ninety per cent of the state highway system is located on rights-of-way acquired by county court orders," Anders said.

The court in its ruling supported landowners' contentions that they had not received sufficient advance notice that the Highway Department had a right to the land. The owners had acquired the land since the county court order was filed.

Anders said land purchasers should be required to inquire about easements on land they buy next to a highway.

Brother-in-Law of Hope Woman Dies

J. H. Grover, aged 50, died in Guthrie, Oklahoma, Wednesday. Survivors include his wife, Mrs. Hazel Grover, one daughter, Gretchen Ann of Guthrie. Funeral services will be in Guthrie Saturday morning. He is the brother-in-law of Mrs. C. F. Baker of Hope.

Drug Bill Set Back by Group

WASHINGTON (AP)—The Senate Judiciary Committee has thrown a hurdle in the path of a bill to tighten federal control of the prescription drug industry.

Rather than clear the measure for Senate debate, the committee voted 9-2 Wednesday to send it to the subcommittee on patents, copyrights and trademarks.

The controversial measure, introduced by Sen. Estes Kefauver, D-Tenn., cleared his anti-trust and monopoly subcommittee last week by a 3-2 vote.

Wednesday's setback came on a motion by Sen. Everett M. Dirksen, R-Ill., an opponent of the bill.

Killer Sought in Search in Oklahoma

BARTLESVILLE, Okla. (AP)—A massive search was under way today for the killer who shot down a Bartlesville area housewife Wednesday, apparently while two of her children watched in fright.

Police think the victim, Bertha Bartholemew, 39, surprised a burglar in her farm home. She and the children were kidnapped but the children were released unharmed.

Authorities have picked up at least one person for questioning. Three-year-old Martin Bartholemew, tugging the hand of his 19-month-old sister, Leslie Ann, led a motorist to his mother's body in a barn near Ponca City, 70 miles west of here. She had been shot once in the head.

The motorist, attorney W. W. Rodgers of Blackwell, Okla., said the children were a little tired, scratched, dirty and chilled when he found them walking along a hazardous section of Oklahoma Highway 11, about nine miles north of Ponca City near the Oklahoma-Kansas border.

Pickets Are Restrained by Order

LITTLE ROCK (AP)—A temporary restraining order against picketing at Titan II missile base sites in Central Arkansas was dissolved Wednesday by U.S. District Judge Guy Williams.

Representatives of the striking Sheet Metal Workers Union were told, however, that he wanted more picketing at the missile sites.

Williams said a request for a temporary injunction filed by the National Labor Relations Board in federal District Court here had taken the matter out of his jurisdiction. District Judge Gordon E. Young has set March 27 for a hearing on the request.

The sheet metal workers struck March 5 over a jurisdictional dispute with carpenters over which union was to install exhaust ducts in the missile silos.

The Chancery Court injunction was issued after two days of picketing. The carpenters remained on the job, but about 1,000 workers honored the picket lines, bringing work to a virtual standstill.

J. B. Dodds, attorney for the Sheet Metal Workers Union, said the union would meet later this week with the Labor Department's Mediation and Conciliation Service in an effort to resolve the dispute.

All Around Town

By The Star Staff

Wednesday night at Hope High School teachers and students enjoyed fine entertainment when Fred Lowery, blind whistler, appeared in an hour program under the auspices of the Southern Assembly, which supplies school programs under a yearly contract.

The program was part of the Student Activities Program at the school. Lowery, well-known in the entertainment field has appeared in Hope previously, at the Third District Livestock Show.

Raymond C. Byers, American Oil Co. representative in Hope, is scheduled to attend a conference with top American Oil officials in New Orleans on Friday, March 16.

There's still no estimate on damage to the Walnut Street Church of Christ but fire ruined practically all the inside of the church.

The fire is believed to have started from a floor furnace.

The church will meet at the WOW Hall until the building can be repaired and this will require considerable time.

Lafayette to Vote on a Bond Issue

STAMPS, Ark. (AP)—A proposed \$210,000 bond issue to finance construction of a furniture factory here will be submitted April 10 for a vote by Lafayette County residents. Also on the ballot will be a one year 1-mill tax to buy the plant site and pay the cost of legal fees. The proposed bonds would be issued under Amendment 49 and retired by payments from Gaines, Inc., of Stamps, which would lease the building under the name White & Co.

There were several wet spots and it was on the chilly side in some northern regions today, but for the first time in several days no severe stormy weather was reported across the nation.

Rain doused broad sections of the South from west central Texas eastward through the Gulf states to the southern Atlantic Coast. The rain in the Southeast, along with cooler weather, extended from the Mississippi Delta region across southern sections of Mississippi and Alabama, most of Georgia and South Carolina and extreme northern Florida.

Light snow fell west of the Lower Mississippi Valley into southwest New Mexico in the wake of fairly heavy snow which hit areas from New Mexico into East Texas Wednesday. Snowfalls measured up to seven inches in some areas.

Light snow continued from the Upper Mississippi Valley eastward into the northern Appalachians. Meanwhile, areas in the Dakotas, Iowa, Nebraska and Minnesota continued the big job of removing the heavy snow covering which blocked hundreds of roads. Winds diminished, aiding snow removal operations, but many secondary roads still were buried under huge drifts 10 to 15 feet high.

Rep. Dale Alford, D-Ark., is the only announced candidate. No one has filed for the office.

Gov. Orval E. Faubus, who has not said if he will seek a fifth term, said today word about Coffelt's possible candidacy was "news to me."

Faubus said he probably would announce his intentions "about April 1."

He refused today to confirm or deny reports that he was considering entering the Democratic primary. He also would not discuss a report that he is arranging a news conference to make some kind of announcement Saturday.

Coffelt seriously considered running for governor in 1960 but changed his mind.

Rep. Dale Alford, D-Ark., is the only announced candidate. No one has filed for the office.

Gov. Orval E. Faubus, who has not said if he will seek a fifth term, said today word about Coffelt's possible candidacy was "news to me."

Faubus said he probably would announce his intentions "about April 1."

Local Girl Scouts in Pageant

In Texarkana Saturday, March 17 the Conifer Council of Girl Scouts will stage a pageant in the Texarkana Junior College auditorium to commemorate the 50th birthday anniversary of Girl Scouting in the U.S.

Girl Scouts in Hope who will take part are: Judy White, Girl Scout leader of a group; the choruses of Janey Seamans, Ginny Gardner, Nancy Martindale, Ruth Edwards, Kathie Sue Evans, Susan McCain, Sue Russell, Sherry Crank, Sharon Rogers, Donna Connelly, Becky Polk, Mary Ellen Holder, Darla Kay James.

Betty Gaines, Brenda Jo McRoy, Mindy McElroy, Janice Russell, Sally Booth, Mary Beth Lewis, Mary Lou Greene, Sandra Barabotto, Candy Harris, Cathy Feild, Debbie Dunn, Cathy Lewis, Mary Nell Williams and Barbara Thompson.

Carrying the flags will be Jan Herring, Debbie Benefield, Betty Lindsey, Sherry Dickinson, Nancy Lindsey, Molly Tolleson, Ruth Ann Wylie, Sue Randolph and Brenda Williams.

All participants must report at 1 p.m. March 17 at the Texarkana College auditorium. Then, for the evening performance meet at the backstage entrance at 6:15 p.m. The time of the pageant is 6:30 to 9 p.m.

There's still no estimate on damage to the Walnut Street Church of Christ but fire ruined practically all the inside of the church.

The fire is believed to have started from a floor furnace.

The church will meet at the WOW Hall until the building can be repaired and this will require considerable time.

The same time yesterday afternoon the department was called to Anthony's mill where fire destroyed a large motor and leaking gas caused a fire at the W. T. Elder home on 23rd St. but no damage resulted.

Candidates in No Hurry to Commit Selves

By JOHN R. STARR

LITTLE ROCK (AP)—The candidates are in no apparent hurry to commit themselves this year.

With less than two months remaining until the ticket closes May 2, the large chart through which Secretary of State Nancy Hall keeps track of filings for state offices is largely blank.

So far, there is no official candidate for governor, secretary of state, attorney general, land commissioner or auditor.

No one has filed for any of Arkansas' four seats in the U.S. House of Representatives.

Ten of 21 open seats on circuit court benches are going begging at this point.

There is no candidate for prosecuting attorney in 13 districts.

Six state senate posts still are without official office seekers.

Mrs. Hall, who helped her late husband, C. G. Hall, chart the candidates for many years, admits the situation is unusual.

"Maybe everybody's waiting to see what Gov. (Orval) Faubus will do," she said. "Nobody seems to be in any hurry. Most years we've had at least one candidate for almost every office by March 15."

In short, the political cat-and-mouse game is in full swing.

Many incumbents are waiting to see what kind of opposition materializes before they commit.

U.S., Russia Detail Plans for Disarming, Clash at the Outset

Quit Aircraft Harassment, Russia Advised

By WHITNE SHOEMAKER

WASHINGTON (AP)—President Kennedy has cautioned the Soviet Union against provoking the Allies into retaliating to its particularly dangerous harassment in the air corridors to Berlin.

Soviet flights into space reserved for Western planes and showering of metallic flakes in an apparent effort—so far unsuccessful—to upset airway radar systems make it even more difficult to reach an agreement on Berlin, Kennedy told a news conference Wednesday.

With the situation so hot, Kennedy said, both sides should avoid incidents that may lead to "actions and counteractions which can only intensify the danger."

He called the Soviet spreading of metallic chaff in the corridors "a particularly dangerous kind of action." And he said the West is waiting to see how the Soviet Union reacts to very vigorous protests by Secretary of State Dean Rusk and British Foreign Secretary Lord Home.

Questions about the 17-nation disarmament conference at Geneva set the theme for Kennedy's conference. But it ranged over matters from storm insurance to fighting in South Viet Nam.

Kennedy derided criticism of his \$4.9-billion foreign aid request and asserted "it would be the most unwise act possible to cut our assistance program." Aid to Allies and emerging nations, he said, is just as important as our national defense. These countries, he said, are right in the line of fire.

In the area of security, he said the U. S. position would be strengthened if there were no more nuclear tests in the atmosphere, including the series he has ordered to begin next month. For this reason, he said, the United States wants to conclude an effectively safeguarded test ban treaty.

Kennedy said the West would propose measures at Geneva to make secret preparations for tests more difficult. But detecting preparations for tests, he said, was not as significant as being able to detect the tests themselves.

"Preparations are only important if they lead to tests, and once the tests come," he said, a satisfactory detection system would alert the United States to take action.

Marshall sharply disagreed with testimony given earlier by Lt. Col. William E. Mayer, an Army psychiatrist who pictured American youth as soft and lacking in patriotism.

Survivors include his wife, of Stamps; two sons, A. D. of Stamps and Glendon of Plano, Tex., a daughter, Mrs. Buford Chastain of Little Rock; five brothers, Victor Dewey, Russell and Billy Nichols of Stamps and Maury Nichols of Buckner and one sister.

Services will be held at 10 a.m. Friday at Smith Chapel, Stamps, by the Rev. Glen Greene. Burial will be in Sardis Cemetery.

Burton Services Held at Lewisville

Funeral services for John B. Burton, 87, Lewisville lumberman who died Tuesday, were to be held at 2 p.m. Friday at Lewisville Baptist Church with burial in Wilson Cemetery.

Survivors include his wife, a son, J. B. Burton Jr., two daughters, Mrs. J. W. Moore of Lonoke and Mrs. W. H. Triplett of Lewisville; two brothers, R. M. of Lewisville and A. T. of Winfield, La.

Carrying the flags will be Jan Herring, Debbie Benefield, Betty Lindsey, Sherry Dickinson, Nancy Lindsey, Molly Tolleson, Ruth Ann Wylie, Sue Randolph and Brenda Williams.

All participants must report at 1 p.m. March 17 at the Texarkana College auditorium. Then, for the evening performance meet at the backstage entrance at 6:15 p.m. The time of the pageant is 6:30 to 9 p.m.

Thinks U. S. Military Is Downgraded

WASHINGTON (AP)—A prominent writer on military affairs said today he was tired of hearing American fighting men downgraded and vilified as weaklings.

S. L. A. Marshall, a retired brigadier general who writes for the Detroit News, said in testimony prepared for a Senate subcommittee investigating troop indoctrination:

"I cannot imagine anything worse for this country than an unjustified lamenting, a beating of breasts about failure and weakness in the American character or a mistaken evangelism which pleads for the saving of that which has not yet been lost."

"If I were convinced that American youth of military age were as derelict and characterless as the worst pessimists have proclaimed it, though I might say so here, it would be loath to suggest how this story might be put before the country to serve a constructive end," he said.

"It promotes limitless danger. A great nation may not be told: 'You are weak. You young people have proved unfit for war. There is no hope for you but to start anew.'"

Marshall sharply disagreed with testimony given earlier by Lt. Col. William E. Mayer, an Army psychiatrist who pictured American youth as soft and lacking in patriotism.

Survivors include his wife, of Stamps; two sons, A. D. of Stamps and Glendon of Plano, Tex., a daughter, Mrs. Buford Chastain of Little Rock; five brothers, Victor Dewey, Russell and Billy Nichols of Stamps and Maury Nichols of Buckner and one sister.

Services will be held at 10 a.m. Friday at Smith Chapel, Stamps, by the Rev. Glen Greene. Burial will be in Sardis Cemetery.

Candidates in

Continued From Page One

themselves.
On the other hand, some of the
"outs" won't make a move until
the "ins" are on the line.
This early in the game, few
races have materialized. Most of
the filings have been either by in-
cumbents who unashamedly want
to stay on the job and don't ex-
pect opposition, or by candidates
seeking an office in which the in-
cumbent is ineligible to succeed
himself or has said he won't seek
reelection.

Some notable exceptions:
The 11th Senatorial District,
Position 2, where State Rep. Eu-
gene "Bud" Canada and Sen. Q.
Byrum Thurston, the incumbent, both
have filed.
The 16th Senatorial District
where Dub Wells of Hampton and
Sen. O. R. Williams both are can-
didates.
The 10th Senatorial District
where L. L. Bryan of Russellville
has filed and Sen. Robert H. Wil-
liams, also of Russellville, hasn't
said what he will do.

The prosecutor's post in the 13th
Judicial District where John M.
Graves of Camden has filed
against incumbent Bill Prewitt of
El Dorado.
The 18th Judicial Circuit where
Marshall Purvis of Hot Springs is
opposing Judge P. E. Dahls of
Hot Springs.

Rep. Dale Alford, D-Ark., has
announced for governor, but he
hasn't put on the \$1,500 filing fee.
Sen. J. W. Fulbright, D-Ark., has
filed, without an opponent so far.
There will be "open" races this
year for three constitutional offi-
ces—treasurer, secretary of state
and one Supreme Court position.
An "open" race is one for an of-
fice for which the incumbent can-
not run or does not plan to run.

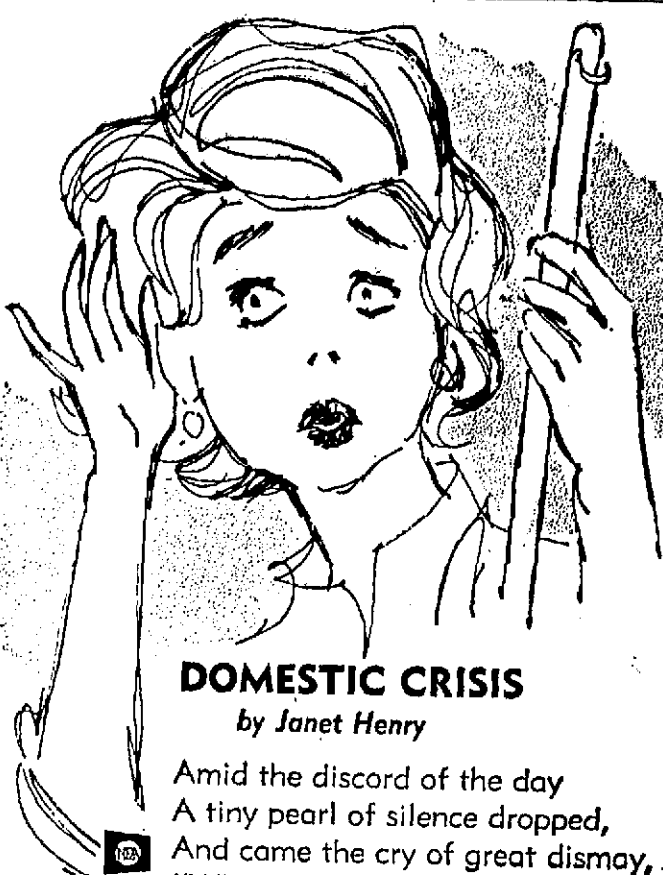

Mrs. Hall has filed for the treas-
urer's job. J. Fred Jones of North
Little Rock has filed for the Su-
preme Court job now held by Neil
Bohlinger on appointment.
If tradition holds, few judges
will have opposition to reelection
bids. Incumbents in constitutional
offices, except the governor, usually
escape opposition. However, most
state senators will eventually
have an opponent, actual or token.
In any event, with so many jobs
still unsought, the tempo of filings
is bound to pick up in the next
month. The fields should be fairly
well established by mid-April.

Photographer Caught With Nude Photos

FAYETTEVILLE, Ark. (AP)—
A 26-year-old Fayetteville pho-
tographer has been charged with
possessing obscene material—nude
pictures of high school girls and
young women.

Jerry Dacus, the photographer
who runs a shop and newsstand
about a block from the University
of Arkansas campus, was held in
lieu of \$2,000 bond.
Police Chief Hollis Spencer said
Dacus, formerly of Rogers, Ark.,
and California, had a number of
negatives and photos in his pos-
session at the time of his arrest
Tuesday. Spencer said he consid-
ered the pictures obscene.

The police chief said Dacus ad-
mitted taking the pictures and
said he intended to sell them to
magazines. Prosecutor Ted Coxey
of Berryville filed the charge
Wednesday.
Spencer said the parents of one
of the girls contacted in connec-
tion with the pictures had com-
plained to him. Then University
of Arkansas officials asked Spen-
cer to investigate letters that co-
eds had received letters inviting
them to have their pictures taken
free. Spencer said that as far as
he knew, university co-eds were
not involved.

DOMESTIC CRISIS

by Janet Henry

Amid the discord of the day
A tiny pearl of silence dropped,
And came the cry of great dismay.
"What stopped?"

Weather

(M—Missing)

\$11,647 Per Day

LITTLE ROCK (AP)—The
annual report of the Arkansas
Baptist Hospital said Wednes-
day operational costs for the hos-
pital during 1961 amounted to
\$11,647 a day, or a total of \$4,251-
446. The report said nearly 20,000
patients spent 128,473 days in the
institution last year.

Mayor Appointed

POCANTON, Ark. (AP)—J.
Pratt was appointed here Wednes-
day night to fill the unexpired
term of former Mayor Ted Bowers,
who resigned last month to devote
more time to business. Pratt, a
retired grocer, served two terms
as mayor in the early 1940s.

Trying to Be Helpful, IRS Declares

WASHINGTON (AP)—The In-
ternal Revenue Service says it
was only trying to be helpful in
sending a flock of agents to an
Arkansas community. But some of
the townspeople don't seem to ap-
preciate it.

In fact, the citizens of Fordyce
(pop. 3,890) got so nervous they
stopped buying things, the local
Chamber of Commerce com-
plained Wednesday. It said busi-
ness in Dallas County (pop. 10,
522) declined 50 per cent since the
30 or so agents dropped into town
10 days ago.

All the IRS agents meant to do
to the people of Fordyce was to
help them with their tax re-
turns—not to frighten them, a
service spokesman said.

He said the coming of the agents
was publicized in the area in ad-
vance. Citizens were advised the
agents would be available to talk
with those whose 1960 returns
were being audited or who needed
help with 1961 returns.

It was "an experimental thing,
an effort to see if the operation
could be made more useful and
efficient," the spokesman said.

If the office hadn't been set up
in Fordyce, he said, those whose
returns were being checked would
have had to travel 40 miles to the
nearest revenue service office.

When complaints of declining
sales came in, the Fordyce cham-
ber polled business houses in the
area. Some companies registered a
fall-off as high as 75 per cent,
reported.

The chamber swung into action
firing off telegrams to the Arkan-
sas congressional delegation. State
Rep. Edward L. Works chipped
in with a letter to congressmen.

Works said 20 men took off from
work at one plant on a single
morning to answer questions at
IRS headquarters.

The IRS spokesman in Washing-
ton said 20 men were summoned
on the same day from the firm—
a lumber plant—so work sched-
ules would not be disrupted for
any length of time.

About half a dozen agents still
are in Fordyce, he said. The ex-
periment ends Friday.

WASHINGTON (AP)—The Inter-
nal Revenue Service says it was
only tryin gto be helpful in send-
ing a flock of agents to a tiny
Arkansas community. But some
of the townspeople don't seem to
appreciate it.

In fact, the citizens of Fordyce—
Pop. 3,890—got so nervous they
stopped buying things, the local
Chamber of Commerce com-
plained Wednesday. It said busi-
ness in Dallas County—Pop. 10,
522—declined 50 per cent since the

Legal Notice

IN THE PROBATE COURT OF
HEMPSTEAD COUNTY,
ARKANSAS

IN THE MATTER OF
THE ESTATE OF
BEULAH M. STROUD,
DECEASED

PROBATE NO. 1542
NOTICE

Last known address of decedent:
High Street, Hope, Arkansas
Date of Death: October 6, 1961

An instrument dated January
31, 1957, was on the 12th day of
March, 1962, admitted to probate
as the last will of the above named
decedent, and the undersigned
was appointed executor there-
under. A contest of the probate of
the will can be effected only by
filing a petition within the time
provided by law.

All persons having claims
against the estate must exhibit
them, duly verified, to the under-
signed within six months from the
date of the first publication of this
notice or they shall be forever
barred and precluded from any
benefit in the estate.

This notice first published the
15 day of March, 1962.

Hope, Arkansas
March 15, 22, 1962

Personal Incomes Soar, It Says

WASHINGTON (AP)—A sharp
increase in wages and salaries
last month sent the personal in-
come of Americans soaring to a
record annual rate of \$432.8 bil-
lion.

Washed away in the surge was
a \$1.5-billion drop in January
which set some economists to
worrying whether the business re-
covery had hit a snag.

Commerce Department figures re-
leased Wednesday showed half
the payroll advance of \$2.6 billion
occurred in manufacturing indus-
tries. A major reason was a
lengthening of the work week.

Small changes in other types
of income pushed the advance
over January to \$2.7 billion.

30 or so agents dropped into town
10 days ago.

"It has excited people beyond
imagination," said one chamber
official. And, a Fordyce merchant
quoted a would-be customer as
saying: "I need to buy a TV, but
I'm going to wait until I see what
these revenue boys do to me."

All the IRS agents meant to do
to the people of Fordyce was to
help them with their tax returns—
not to frighten them, a man said.
He said citizens were advised the
agents would be available to talk
with those whose 1960 returns
were being audited or who needed
help with 1961 returns.

It was an experimental thing,
an effort to see if the operation
could be made more useful and
efficient, the spokesman said.

Bill Designed to Protect the Consumer

By RAYMOND J. CROWLEY

WASHINGTON (AP)—President
Kennedy sent Congress today a
jumbo-size package of proposals
to protect the consumer. He ex-
pressed sympathy for America's
prime buyer, the housewife.

In recommendations that would
cost about \$10 million a year in
addition to programs already cov-
ered in budget requests, he urged
steps to assure:

Safe, effective drugs for the ail-
ing.

Beauty aids that won't burn a
lady's skin.

TV sets that will get more chan-
nels.

Installment contracts that re-
veal the true rate of interest.

Wider inspection to bar un-
wholesome meat from dinner ta-
bles.

Legislation already is under
consideration on some of these
points.

With a bow to the homemakers,
Kennedy said "many of the new
products used in the home are
highly complex. The housewife is
called upon to be an amateur
electrician, mechanic, chemist,
toxicologist, dietitian, and mathe-
matician—but she is rarely fur-

nished the information she needs
to perform these tasks proficient-
ly."

But Kennedy disclosed he hasn't
yet solved a puzzle—how to help
the housewife tell which is the
best buy—the large package, the
giant, the jumbo or the economy
size. He said he would have rec-
ommendations later on truth in
packaging.

Many of Kennedy's recommen-
dations are in legislation already
before Congress—though officials
said that in some cases he went
beyond the pending bills.

The President also announced
he has ordered:

1. His Council of Economic Ad-
visers to create a consumers' ad-
visory council.

2. Various federal agency heads
to name special assistants on
consumer problems.

3. The Post Office Department
to set up a pilot program by dis-
playing, in 100 post offices, pub-
lications useful to consumers.

Orders 1 and 2 represent some-
what of a change of mind. During
the 1960 campaign, Kennedy
pledged to appoint a special coun-
sel in the White house to go to
bat for consumers. Aides ex-
plained that the plan he finally
adopted is more in line with his
style of government.

As for drugs, Kennedy said
9,000 new ones developed in the
past quarter century have saved
countless lives. But many don't
live up to sponsors' claims, he
said. So he urged, among other
things, that manufacturers be re-
quired to show that a drug is

Mrs. Kennedy Doing Fine

BOSTON (AP)—Mrs. Joseph P.
Kennedy, mother of the President,
continued to show satisfactory
progress today in recovery from
a pelvic hernia operation per-
formed Tuesday at St. Elizabeth's
Hospital.

The hospital said Mrs. Kennedy,
71, wife of the former ambassa-
dor to Great Britain, is doing very
well.

Dr. Roy J. Heffernan, who per-
formed the operation, said she
probably will be able to leave the
hospital in seven or eight days
to continue convalescence at Palm
Beach, Fla. The President's fa-
ther is recuperating there from a
stroke.

Dr. Roy J. Heffernan, who per-
formed the operation, said she
probably will be able to leave the
hospital in seven or eight days
to continue convalescence at Palm
Beach, Fla. The President's fa-
ther is recuperating there from a
stroke.

\$33,200 for Home

LITTLE ROCK (AP)—A con-
tract for construction of a super-
intendent's home at the deaf
school was awarded Wednesday by
the board of the state Blind and
Deaf Schools. State Purchasing
Agent Mack Sturgis said the con-
tract went to W. R. Arnold of
Geyer Springs for \$33,200. It calls
for air conditioning and a carport.

effective, as well as safe, before
marketing it.

Kennedy also urged steps to
halt underground traffic in habit-
forming barbiturates (sedatives)
and amphetamines (stimulants).
He said illicit sales contribute to
accidents and crime.

American Plan

Continued From Page One

"If agreement can be reached on
these proposals a major break-
through for disarmament will have
been achieved."

By JOHN M. HIGHTOWER

GENEVA (AP)—"The United
States called today for a 30 per-
cent cut in nuclear delivery vehi-
cles and major conventional arm-
aments over a three-year period
as the first step in a new attempt
to end the arms race.

Secretary of State Dean Rusk
presented a four-point program to
the 17-nation disarmament confer-
ence after Foreign Minister An-
drei A. Gromyko outlined a new
version of Premier Khrushchev's
1959 proposal for general and
complete disarmament over a
four-year period.

The American proposal empha-
sized such control provisions as
the establishment of aerial in-
spection posts, ground observa-
tion posts and a system of noti-
fication of missile firings to prevent
the world from being plunged into
war by "accident, miscalculation,
failure of communications or sur-
prise attack."

Gromyko submitted a Soviet
draft treaty entitled "Treaty on
General and Complete Disarma-
ment Under Strict International
Control." It called for an inter-
national disarmament organiza-
tion established within the frame-
work of the United Nations but
did not spell out international
verification and control arrange-
ments which the Western powers
regard as essential in any dis-
armament agreement.

Partial Success

SAIGON, South Viet Nam (AP)—
A two-pronged government drive
to trap hundreds of Communist
Viet Cong guerrillas in the Me-
kong River delta was winding up
today apparently only a partial
success.

Authorities believe the Viet
Cong, which has been operating in
the swamp for years, succeeded
in disbanding and melting into the
jungle before government forces
could engage them.

SOCIETY

Phone 7-4481 Between 8 A. M. and 4 P. M.

Calendar

Thursday, March 15

The VFW Auxiliary will meet Thursday at 7:30 p.m. at the VFW Hut. All members are urged to attend.

Friday, March 16

The wedding of Miss Linda Aaron to John D. Lee has been moved to the 5th and Grady St. Church of Christ. It will take place at the planned hour of 6 p.m. Friday, March 16. No cards are being sent.

Saturday, March 17

Circle 5 of WSCS of the First Methodist Church will meet Monday, March 19 at 7:30 p.m. in the home of Mrs. Fred Ganton. All members are reminded to bring their work books.

Wesleyan Service Guild No. 2 of the Methodist Church will meet at 7:30 p.m. Monday, March 19 in the home of Miss Mary Louise Copeland with Mrs. Jon Barbarotto as co-hostess.

The Nevada County PTA Council will meet in Prescott at the First Methodist Church Wednesday, March 21. The meeting will begin at 10 a.m. Mrs. Keith Gibson of Bodewill will preside and Mrs. Max Kitchen of Prescott will be speaker. Lunch will be served at the Broadway Hotel.

The Visitation Committee of the WSCS of the First Methodist

Church will meet in the Fidelity Classroom, Monday, March 19 at 8 p.m. All committee members are reminded to bring their visitation cards.

Wednesday, March 21

The Patmos PTA will meet at 2 p.m. Wednesday, March 21 in the school library. A good attendance is requested as there will be an election of officers.

Melrose HD Meets

On Tuesday, March 13 the Melrose Home Demonstration Club met in the home of Mrs. Virgil Huckabee. The meeting was opened by the president, Mrs. Lytle Allen. For the Eye Opener, the Home Management leader, Mrs. T. L. Smith, explained how to make a dust mitt from an old towel.

"The hostess took the devotion from Matt. 7. This was followed with prayer by Mrs. A. C. Kirby. "Getting Along With Others" was the program presented by the club president.

Home Demonstration Agent Mrs. Bettie Duncan demonstrated the making of rain hats, which proved helpful. The Game Prize was won by Mrs. C. F. Wiggins.

Cold drinks, coffee, and cookies were served for refreshments to 11 members and one guest, little Miss Kaye Duncan.

Duplicate Bridge Club

Master Point Night at the Hope Duplicate Bridge Club March 12 saw a gathering of 6 1/2 tables of players at the Diamond. Guest players were Mrs. Wilma Steed of Pine Bluff and the following from Texarkana: Dr. and Mrs. David Looney, Mrs. R. Baskett.

Mrs. E. P. Little, Mrs. Floyd Bell, Mrs. Christine Patterson, Mr. and Mrs. Hugh Martin, Mrs. J. Winham, and Mrs. R. Walker.

Scoring results for North-South were: first, Mrs. R. L. Broach and Mrs. Syd McMath; second, Mrs. J. C. Broyles and Miss Troy Harmon; third, Mrs. J. Winham and Mrs. R. Walker.

East-West: first, Mrs. Harry Hawthorne and Mrs. Marie Hendrix, Mrs. R. Baskett and Mrs. E. P. Little (tie); second Mrs. Floyd Bell and Mrs. Christine Patterson; third, Mr. and Mrs. Hugh Martin.

AE of PEO Meets

The home of Mrs. Lynn Harris was the setting for the meeting of Chapter AE, P. E. O. on Thursday, March 13. Attractive bouquets of spring flowers decorated the home.

Mrs. E. P. O'Neal presided over the business meeting, when plans were made for a tea honoring the state president, Mrs. F. M. Horton, on March 29. Mrs. O'Neal also installed the following new officers:

President, Mrs. Herbert Stephens; vice-president, Mrs. Lynn Harris; recording secretary, Mrs. F. C. Crow; corresponding secretary, Mrs. Jewel Moore, Jr.; treasurer, Mrs. Henry Haynes; chaplain, Mrs. Rufus Sorrells; guard, Mrs. C. V. Num. Delegates to the state convention in Newport in April are Mrs. Herbert Stephens and Mrs. Henry Haynes with Mrs. E. P. O'Neal and Mrs. Rufus Sorrells serving as alternates.

A St. Patrick's Day favor appeared on the plate of cake and nuts served with coffee to 17.

Bridge Club Meets

Spring flowers were seen in the home of Mrs. S. L. Murphy March 13, when she entertained her Tuesday Bridge Club. Two tables of club members participated, and when scores were tallied, Mrs. C. C. Lewis was high.

A salad plate and coffee were served for refreshments.

Iris Garden Club

The Iris Garden Club had its monthly meeting Tuesday, March 13 in the home of Mrs. A. A. Albrighton. The house took on an appearance of spring with lovely floral arrangements at vantage points.

Mrs. Ira Porter, vice-president, conducted the business meeting in the absence of the president, Mrs. Sam Huckabee. Plans were completed for the club project, placing a box of growing poppies at the Veterans' Monument on the courthouse lawn March 14. Flower Show assignments were made.

For the program Mrs. Lahroy Spates gave "Points to Remember When Entering An Arrangement in a Flower Show." Members brought crescent arrangements, and in judging them first place went to Mrs. Jimmy Arnold and Second place to Mrs. Owen Nix. Third went to Mrs. Ira Porter.

The St. Patrick's Day theme was used in the salad plate served with coffee.

Luncheon For Bride-Elect

On Friday, Miss Bernice Daniel, bride-elect of Claid Hammonds of New York City, was honored with a luncheon at the Hope Country Club by Mesdames George Frazier, Lloyd Guerin, E. P. Young Jr., and Dale Dunn.

The honoree, daughter of Mr. and Mrs. N. N. Daniel of Prescott, wore a magenta woolen dress and pinned a corsage of mauve spring flowers at her shoulder. The hostesses presented her a

Miss Gloria Hendrix

Mr. and Mrs. James H. Hendrix of Arkadelphia announce the both are seniors at Ouachita College. The wedding will take place April 20 at Second Baptist Church in Arkadelphia.

DOROTHY DIX

Wife Seeks Answer to Riddle of Unrequited Love

By HELEN WORDEN ERSKINE

Dear Helen: I have everything a human being could ask for, thanks to my husband, except romance. We've been married 10 years, and have three children.

Before marriage I fought him off. My reply was, "I'd rather die than have relations before our wedding but I'll never say no after."

The first three years were one prolonged honeymoon then he slowed down to a stop. Now it's been two years since he has said

gift of silver. Forsythia, daffodils and yellow candles in brass decorated the mantle. Blue Dutch irises were seen on the quartet tables where 15 were served.

The guests included three from Prescott, Mrs. N. N. Daniel, Mrs. T. E. Logan and Mrs. Warren Cummings.

Wedding Rehearsal Held

Mr. and Mrs. C. Stuart Sr. entertained members of the Daniel-Hammonds wedding party with a rehearsal dinner Saturday, March 3 at their home. Spring flowers were seen in attractive arrangements in the home.

Miss Daniel chose to wear dinner dress in beige and muted brown tones. Daffodils in a crystal and silver epergne made a pretty floral display in the dining room. There, a buffet dinner was served to 25.

The couple chose this time to present gifts to their attendants. Following the dinner, Mr. and Mrs. C. Stuart Jr. honored the couple with a dance at the Hope Country Club.

Hopewell HD Club Meets

On Thursday, March 8 the Hopewell HD Club had its monthly meeting in the home of Mrs. Neil Osborn. African violets and jonquils were used in decorations.

All joined in singing to open the meeting. The hostess gave the devotion. Mrs. Ernest Graham, vice president, conducted the business meeting.

"The ABCs of Getting Along With Others" was the program which Mrs. Graham presented. Mrs. J. H. Taylor won the surprise package.

Strawberries, cake and coffee were served for refreshments. The April meeting will be with Mrs. Graham.

Births

Mr. and Mrs. Gerald Duke of Los Angeles, Calif. announce the birth of their first child. It was a 7 pound daughter born on March 14 and named Kimberley Ann. Grandparents are Mr. and Mrs. Aubrey Thornton of Los Angeles and Mr. and Mrs. Harold Duke of Hope. Mr. and Mrs. J. G. Garrett of Hope are the great grandparents.

Coming and Going

Luther Hollamon is going to Little Rock for a checkup at St. Vincent's Infirmary in Little Rock and will be accompanied by Mrs. Martin Pool and Mrs. Colyer Cox of Hot Springs.

Mrs. T. R. Gibson of Patmos has been visiting Mr. and Mrs. Lester Reppond and family in Little Rock.

couldn't resist before we married I've tried poetry, love letters, compliments and all the things of our early married years but obviously I'm no longer alluring to him and this burns me up for I'm still electrified when he walks in the door.

They say a woman should be satisfied with "take-it-for-granted mature love." They also say we should keep on forgiving men as they satisfy their desires in greener fields. That mishmash shouldn't be allowed even in outer space to mess up some future world.

I intend to start mother-and-son chats with our boy as soon as he hits his teens just to set him straight after his Dad "enlightens" him. Any good formula for falling out of love with your husband? —Helpless Wife.

Dear Helpless: You're living too close to your problem. Take the children and go on a trip Easter vacation, sans husband. Buy a pretty spring wardrobe and go through the motions of having a ball — even though your heart is breaking, as it probably will. Write your husband casual letters occasionally. Enclose snapshots of yourself having a good time. Be aloof. The old formula of playing hard to get still holds whether or not a girl's married.

I'm purposely printing the following letter to give the other side of the coin:

Dear Helen: I'm a man who has been married twice; the first time for 23 years, the second for two. Both were the same. When we were single we had wonderful times, were madly in love and practically swooned at sight of one another.

After a year the excitement wore off, the rose-colored glasses broke and both wives and I saw one another as we really were: tired, sick and sore.

My present wife, like the first, is in a dither of pleasure when she goes out with the girl friends. They all know how to dress and where to go — the wife looks like my girl of yore. But let her come home and back she crawls into that miserable, crusty old shell of hers.

Failing to find response in our own home, we men seek excitement elsewhere, then the wife

finds out and we're damned to hell and back when, if you trace back, you'll find it was her fault in the first place.

It's always the men, never the women, who are blamed for extramarital activities. I have scant pity for these worms of women in their snug cocoons. —Misérable F.B.

Dear Miserable: No marriage runs on its own momentum. Even the best takes a lot of pulling, shoving and hauling. And that means teamwork. Put those rose-colored glasses back on and buy your wife a pair.

Look for the virtues, not the faults. Get yourself some new clothes to match your wife's. Show her the town some evening. Bring her a present now and then. Carry on more than a monosyllabic conversation with her. In other words, work at being a husband and expect her as a wife to do the same.

Dear Helen: Why do you ask your readers to send in stamped self-addressed envelopes when you intend putting their problems in the paper? —Sick-at-Heart

Dear Sick: If the problem presented is of universal appeal, I print it for the benefit of others in similar situations. Only when the sender so requests is the question and answer withheld. The stamped, self-addressed envelope is to insure a quick reply.

Send your problem to Helen Worden Erskine. Be sure to enclose a stamped, self-addressed envelope and address her care in this newspaper. Helpful letters available. Write for "Marital Harmony."

832 Receive \$36,826

LITTLE ROCK (AP) — State Welfare Commissioner Carl Adams said Tuesday his department spent \$36,826 for hospital and medical care for 832 Arkansans last February. Treatment was provided under provisions of the Kerr-Mills Act passed last year. Adams said the total was 200 above that of the preceding month.

Woman Charged in Slaying

RUSSELLVILLE (AP) — Mrs. Mary Perkins, 45, was charged with second degree murder Tuesday in the death of Ted R. Flannery, 35.

Flannery was shot Feb. 27 in front of Mrs. Perkins' home about five miles north of here. She said Flannery and Luther Mann, 38, had tried to attack her.

She said she fired a .22 caliber rifle through the door of her house. Flannery died March 4.

Mrs. Perkins and Mann, who was charged with assault with intent to rape, were released on bond.

Now the Thief Wants Paint

LITTLE ROCK (AP) — A 12-foot plywood boat, scraped and ready for a new paint job, was stolen Monday from in front of Leroy Sparrow's office here.

Sparrow told police he didn't consider the boat much of a loss when it was stolen, but Tuesday the thief phoned and asked him to leave a bucket of paint handy so he could steal that, too.

"Now" said an angry Sparrow, "I want my boat back."

Army to Call 6,000 in May

WASHINGTON (AP) — The Defense Department today issued a draft call for 6,000 men in May for the Army.

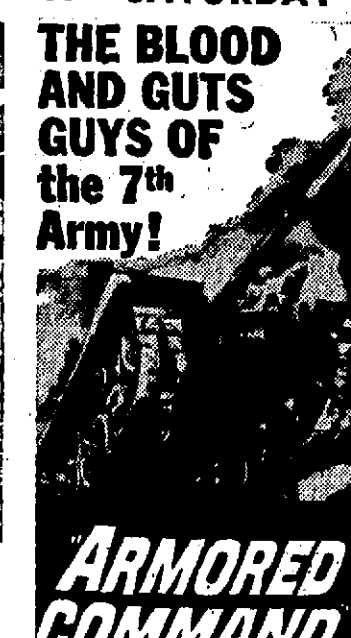

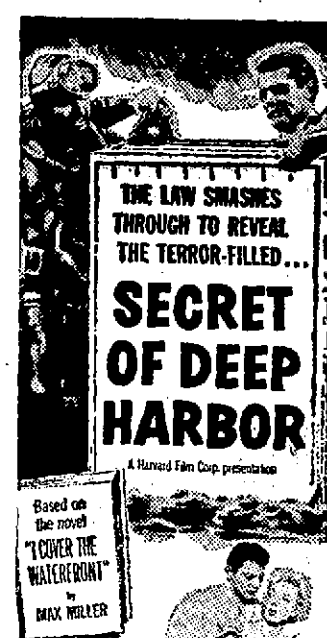

While this is the same number drafted for March and April, the Pentagon said it will bring to 135,000 men the number called by Selective Service from the beginning of the Berlin crisis military buildup of last August.

"As a result of these higher draft calls, and other personnel actions, the strength objective of the Army including provision for manning the two new Army divisions has now been reached," the statement said.

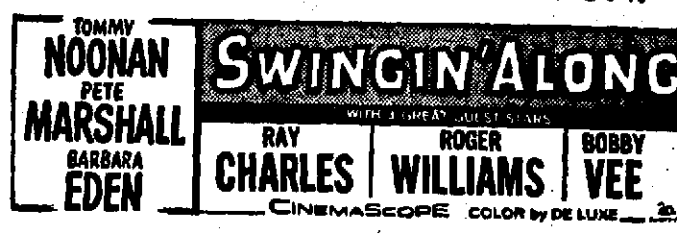

The Navy, Air Force and Marine Corps do not intend to draw on Selective Service during May.

Davis Boys Are Dodgers Hope This Season

By MIKE RATHET
Associated Press Sports Writer

Willie and Tommy Davis, stamped with the can't miss label while they were still teenagers, have the peanut-hungry Los Angeles Dodgers hoping this is the year the fuzzy-checked prospects turn into shubbe-chinned stars.

Willie, 23, and Tommy, 22, outfielders who are not related, were the main architects along with rookie Larry Burright of Wednesday's 7-5 victory over Minnesota at Vero Beach, Fla.

Willie, a left-handed swinger who hit only 254 during the 1961 campaign, smacked a three-run triple against the Twins and added two singles for 10 hits in 17 at-bats this spring and a gaudy .500 batting average.

Tommy, a right-handed batter with a .278 mark last year, made it two homers in successive days with a solo shot that gave the Dodgers an insurance run in the seventh. Tommy collected a grand slam Tuesday.

Burright, 24, an infielder up from Atlanta where he hit .291, continued his battle for a berth by stroking two singles and a double. He has hit in four straight games and is 7-for-15 over-all for a .47 average.

While the Dodgers' main squad was whipping the Twins, the "B" team used a 4-for-4 performance by Duke Snider and Ken McMullen's two-run homer to beat the New York Mets 9-3.

The world champion New York Yankees remained undefeated by making Kansas City their fifth victim, 4-3 in 11 innings at Fort Lauderdale, Fla., while the National League champion Cincinnati Reds were losing their fourth in five games, 12-1 to Washington at Pompano Beach, Fla.

In other games, Chicago's White Sox edged Milwaukee 4-3 at Sarasota, St. Louis defeated Detroit 4-2 at Lakeland, San Francisco outslugged Los Angeles' Angels 14-11 at Phoenix, Cleveland beat Boston 7-5 in 10 innings at Scottsdale, Pittsburgh trimmed Philadelphia 8-3 at Clearwater and the Chicago Cubs defeated Houston 6-3 at Apache Junction.

Reserve Jack Reed got the job done for the Yankees, beating the A's with a two-out homer in the 11th, after he had brought about a 2-2 tie with a run-scoring single. Ace left-hander Whitey Ford started for the Yanks but left after one inning with a tight shoulder.

The Senators throttled the Reds with an 11-hit attack that included homers by Bob Johnson, Bob Schmidt and Chuck Cottier.

PRAGUE, Czechoslovakia (AP) — Canada had one title in hand and a good crack at the other three today in the 1962 World Skating Championships.

Russia's first bid for a world skating title fell short in the pairs title, won Wednesday night by Canadians Maria and Otto Jelinek of Brno, Ont.

The Prague-born Canadians, who are retiring after his competition, drew five of the nine first-place votes, and had a 102.2 to 102.1 points margin over the Russian pair of Ludmila Belousova and Oleg Protopopov.

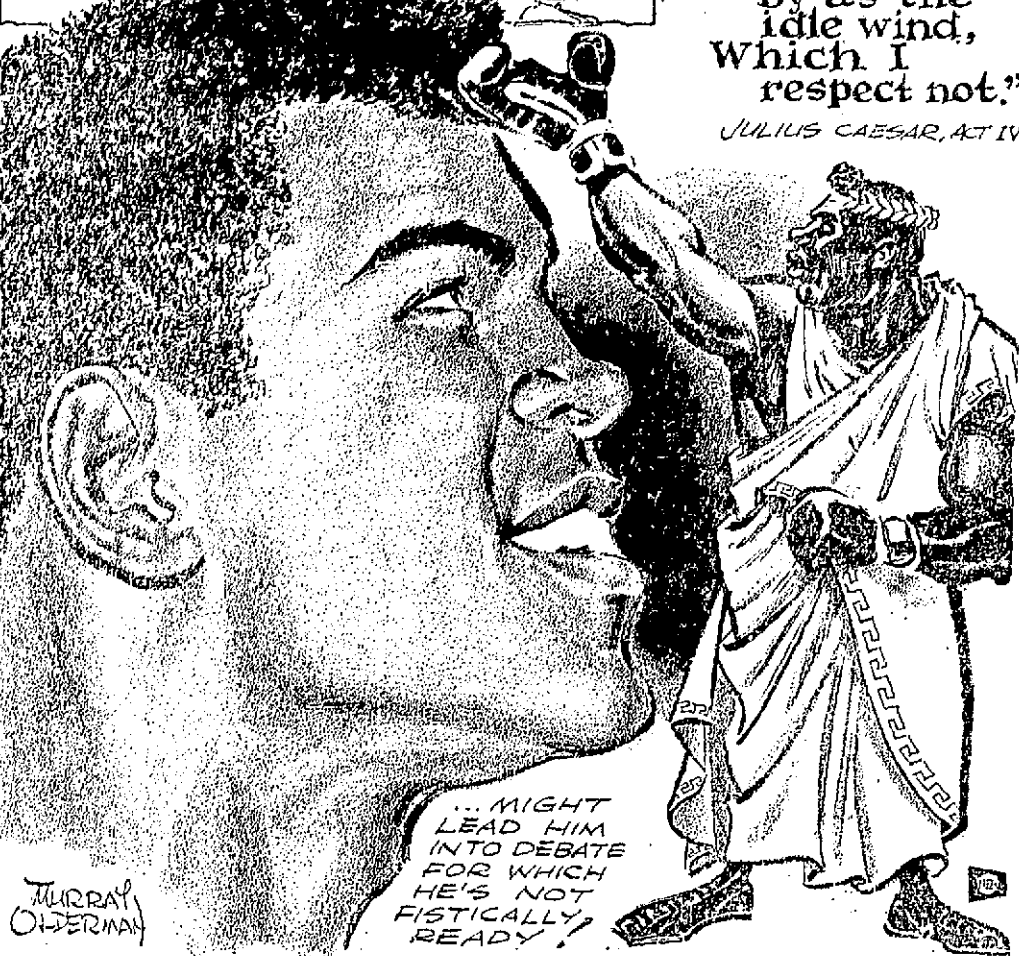

West Germany's Margaret Goebel and Franz Ningel were third.

Best American finish in the pairs was eighth by Dorothy Ann Nelson and Peter Kollen, Lake Placid, N.Y. Judann and Jerry Fotheringill, Tacoma, Wash., were 10th.

Canada's favored Donald Jackson, of Toronto, trailed after four of six compulsory figures in the men's singles. Karol Divin of Czechoslovakia led him, 765.7 to 730.1, but the Canadian is rated

Porker Track Team Swings Into Action

FAYETTEVILLE, Ark. (AP) — The University of Arkansas track team swings into its first outdoor action this week. The Razorbacks will host Kansas State College of Pittsburg Saturday.

Coach Ab Bidwell said his squad lacks depth, but he was complimentary of senior Jerry Hughes' 14-9 pole vault in an indoor meet at Tulsa last Thursday. Bidwell said he expects Hughes to top 15 feet before the season is out.

Athletic Director John Barnhill released the Porker track schedule Wednesday. Aside from tournaments, the Razorbacks will run in ten meets. The feature meets of the season will be the twin Arkansas Relay carnivals on March 13 and April 7.

Barnhill also released the U of A baseball schedule for 1962. The Razorbacks have scheduled 25 games, the NCAA maximum and the longest schedule in Razorback baseball history.

The baseball season opens March 26 with three-game series in Fayetteville with Buena Vista College of Iowa.

Baseball coach Bill Ferrell will have senior Jerry Carlton of Sheridan at shortstop. Carlton batted .342 in 1960 and .375 last year.

Ferrell said he expects his squad to suffer from lack of power and experience.

use his name, said "he'll be fired as sure as the Supreme Court decision."

And the Rocky Mountain News in Denver predicted Grandelius' dismissal this weekend — unless the regents change their mind.

The 32-year-old former Michigan State player and coaching assistant was on a recruiting trip and declined to comment.

The situation is said to have developed from an NCAA investigation of an alleged slush fund established by businessmen boosters of the football Buffs, completely divorced from the official university family.

Last season, the Buffs captured the Big Eight title and went to the Orange Bowl, where they lost to Louisiana State 25-7. Grandelius-coached teams have a 20-10 record over the past three campaigns.

SMOKE UP — Dodger outfielder Frank Howard offers cigars at the Vero Beach, Fla., training camp of the Los Angeles team. The occasion? A six-pound, seven-ounce boy. He's the Howards' third child.

Fishing Around Arkansas Lakes

LITTLE ROCK (AP) — Here is a fishing forecast from the Arkansas Game and Fish Commission:

Lake Maumelle: Clear and up. All fishing fair.

Lake Conway: No report.

Lake Hamilton: All inlets dingy. Main body low and clear. Black bass fair to good on minnows and artificial bait. Bream fair to good on crickets and worms. Crappie fair to good on minnows and artificial bait.

Lake Catherine: Water seven feet low. Bass fair on artificial bait. Crappie and bream slow.

Lake Greeson: No report.

Lake Ouachita: Water low and clear. Upper end dingy. Black bass fair on artificial and live bait. Crappie good on yo-yos.

Lake Bull Shoals: No report.

Lake Norfork: No report.

Water Bonds Vote

CLARKSVILLE, Ark. (AP) — Coal Hill residents will vote March 27 on a \$20,000 bond issue for a waterworks project. If approved, the bonds would supplement a \$105,000 bond issue that would be retired by revenue from the water system. Coal Hill is in Johnson County.

Our Special Jet Ran Just Like One

HOT SPRINGS, Ark. (AP) — The Jacnot Stable's Our Special Jet did everything but leave contrails as she surged across the finish line three-quarters of a length ahead of Irving Gushen's Bumpy Road to take the \$3,500 featured George Gobel Purse Wednesday at Oaklawn.

Piloted by jockey Ken Griffith Our Special Jet trailed most of the race, but zoomed over the six furlongs of fast track in a creditable 1:11 nonetheless.

Pyrite, W. Hal Bishop's 9-5 favorite, was third, a head back of Bumpy Road.

Our Special Jet, the 5-year-old daughter of Jet Pilot and Tulle, returned \$24.40 \$9.60 and \$4.60.

A crowd of 8,500 wagered \$557,946 on the nine race card.

Jockey Wayne Chambers was the riding star of the show, bringing in four winners to duplicate Robert Nono's accomplishment Saturday.

Chambers winners were: Seventh Deck (\$6.60) in the first race; Mamp (\$18.00) in the third; So Will I (\$11; in the fourth, and Light Blue (\$22.80) in the last event.

The jockeys will have more chances for multiple winners after Monday — Oaklawn Jockey Club's General Manager J. Sweeney Grant announced Wednesday there will be nine races a day for the last three weeks of the season.

Nine-race cards have been presented on Wednesday, Fridays and Saturdays for the past several seasons here.

Grant said the new policy was by agreement with the owners. Thursday's \$3,800 headliner will see Bayliff and Wise's Just Think attempting to redeem himself after being a badly beaten favorite in his last effort.

Those entered in the limit field event carry claiming prices ranging from \$8,500 to \$9,500.

Among the entries in the mile and 70 yard sprint is Marion H. Van Berg's Severn, topweighted at 122 pounds, who won the featured purse Feb. 28 when Just Think finished sixth.

Severn will be coupled with his stablemate Rurik, also regarded as a threat. Others seen as strong contenders are Holsinger and Davis' Kitch's Joy and the Ford Stable's Converter.

Just Think's last effort was over a heavy strip and he may show improvement on a fast track. Ronnie Campbell will be jockeying the 5-year-old.

Kitch's Joy, a daughter of John's Joy, will have the benefit of a feathery 102-pound impost and will be ridden by apprentice Robert Craig, a new arrival from New Orleans.

Rurik has been racing close up in sprints and the longer distance of Thursday's feature may be to his advantage.

Patterson Set to Sign With Liston

By JIM BECKER
Associated Press Sports Writer

NEW ORK (AP) — Floyd Patterson is scheduled to sign the contracts Friday for the defense of his world heavyweight championship against Sonny Liston, in what shapes up as the richest fight in ring history.

The signing will stave off any action by the National Boxing Association to strip Patterson of the crown.

The announcement of the signing came Wednesday from Julius November, Patterson's attorney, and Tom Bolan, president of Championship Sports Inc., who will promote the multimillion-dollar bout.

Both were coy about where the signing will be, or whether Liston will be there, too.

They were equally shy about revealing the date and site of the bout, although the word hereabouts is that New York has the inside track. Patterson has said the fight will be in June or July.

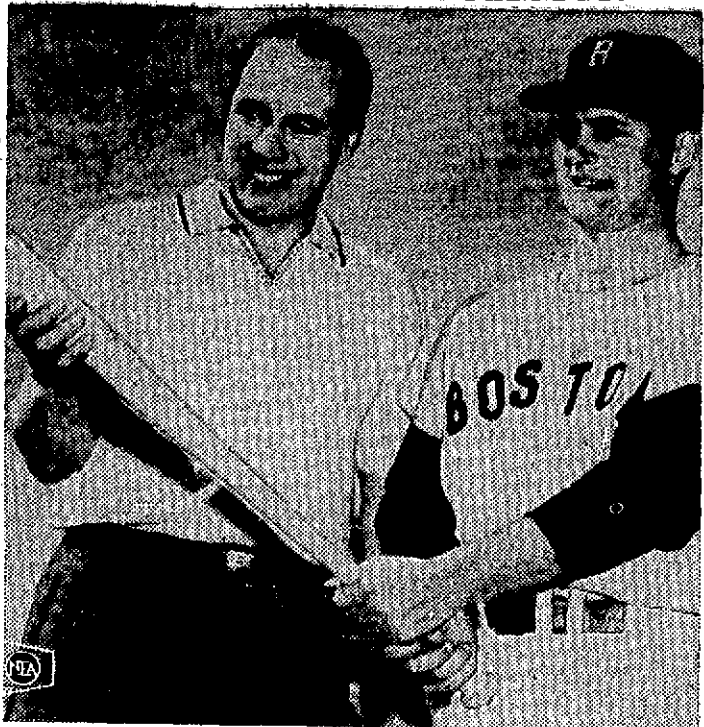

Liston is the No. 1 challenger, in both the NBA and Ring rankings.

Paul Sullivan of the NBA world championships committee, had said earlier this week that he was planning to poll its members for an opinion on whether Patterson should be unfrocked for failing to defend against an approved challenger within a year.

Sullivan said the signing announcement ended his plans for a poll on Patterson's status.

The champion made his last approved defense on March 13, 1961, when he knocked out Ingemar Johansson. His destruction of Tom McNeely last Dec. 4 was not an NBA-sanctioned bout.

Estimates of the combined take on a Patterson-Liston go range from \$3 million to \$10 million. Either would give both fighters their biggest pay day, and Patterson's chunk is almost certain to top the nearly \$1 million Gene Tunney collected for whipping Jack Dempsey in their 1927 long count struggle.

GOOD WOOD—Bob Feller in the Boston Red Sox camp at Scottsdale, Ariz., Stadium discusses bats and base hits with Carl Yastrzemski. The Boston club looks to the 22-year-old outfielder for the long ball and runs-batted-in.

Travelers in Victory Over Conway

LITTLE ROCK (AP) — The Arkansas Travelers, paced by a 31-point output by John Robinson, downed Elmer's Sports of Conway 7-5 in the state AAU basketball tournament here Wednesday, while Ark-Mo Power topped Wilkerson Deisel 65-60.

Richard Curry led Elmer's scoring with 19 points.

Darrell Brocker dropped in 25 for Ark-Mo, trailed by Ronnie Kennett with 18. Wilkerson Deisel's Carson Smith netted 19.

Both games were played at the Little Rock Boys Club.

In games at Little Rock University, Southern Baptist College defeated Dierks 107-77, the Little Rock Choro Boys dropped Hot Springs Coca-Cola 97-84 and Carder Buick beat Cotton Plant 91-74.

High scorers were: Peter Townsend with 24 for Southern Baptist, Roy Rogers of Dierks and Jewell Self of the Choro Boys with 28 each, Ronnie Moore of Coca-Cola with 23, and Jim Culp of Carder Buick and Jackie Bank of Cotton Plant with 30 points each.

Thursday night at LRU, Beebe Junior College meets the Wynne Independents, the Mulvenders tangle with the Prescott Independents, and Rogers Recreation plays Shearman Concrete.

Small Colleges Enter Final Tourney Round

By THE ASSOCIATED PRESS

Providence, which closed with a rush, opens defense of its National Invitation Tournament title tonight at the top of the nation's college basketball program.

The Friars, who had trouble at the first of the season but won 15 of their last 16, will go against Temple in a first round match at Madison Square Garden.

In the other principal activity, quarter-finals are scheduled in the NCAA small college tourney at Evansville, Ind., and in the NAIA tourney at Kansas City.

Eight second-round games in four locations are scheduled in the NCAA major college tourney Friday.

The Friars have a 20-5 record. Temple has a 17-8 record.

The other half of the double-header pits Wichita (18-8) and Dayton (20-6). The other first round games will be played Saturday, Colorado State (18-8) vs. Holy Cross (19-5) and Navy (13-7) vs. Duquesne (20-5).

The other four teams in the tourney—Bradley, Houston, Loyola of Chicago and St. John's of New York—were seeded into the quarter-finals.

The NCAA small college affair, which started with 32 teams in eight locations, opens a three-day run in Evansville today.

The quarter-finals match North-eastern (17-7) vs. Southern Illinois (19-9), Mt. St. Mary's (21-6) against Willenborg (21-4), Sacramento State vs. Valparaiso (17-7), and Southeast Missouri (18-6) vs. Nebraska Wesleyan (19-6).

The winners play in the semi-finals Friday.

In the NAIA, Southeastern Oklahoma State takes on Ferris Institute (Mich.), Westminster (Pa.) goes against Orange State (Calif.), Carson-Newman (Tenn.) faces Western Illinois and Arizona State College tries Prairie View A&M of Texas in quarter-finals tonight.

Key games in the NCAA Friday are the first tourney outings of defending champion Cincinnati and powerful Ohio State. Cincinnati, which hopes to repeat its 1961 upset triumph over the Buckeyes, takes a 25-2 record into its match with Creighton (20-4) at Manhattan, Kan. Ohio State (23-1) opens against Western Kentucky at the University of Iowa.

All of the clocks at the Naval Observatory in Washington show Greenwich Mean Time, which is five hours ahead of Eastern Standard Time.

Vaccine to Fight Cancer Being Tested

By JOHN BARBOUR
Associated Press Science Writer
PHOENIX, Ariz. (AP)—A hopeful new search for a vaccine to protect humans against cancer has begun.

Today 120 persons between the ages of 60 and 70 in Sweden form the first test group, but if all goes well perhaps 12,000 persons may receive experimental vaccine before 1965.

So reported Dr. Bertil Bjorklund of the Immunological Research Laboratory in Stockholm to newsmen after the closing session of the American Cancer Society's science writers seminar.

The vaccine consists mainly of bits of killed cancer cells, actually human cells that have become abnormal.

In the healthy body these cell fragments will stimulate production of protective antibodies—the substances that tend to inactivate germs and viruses.

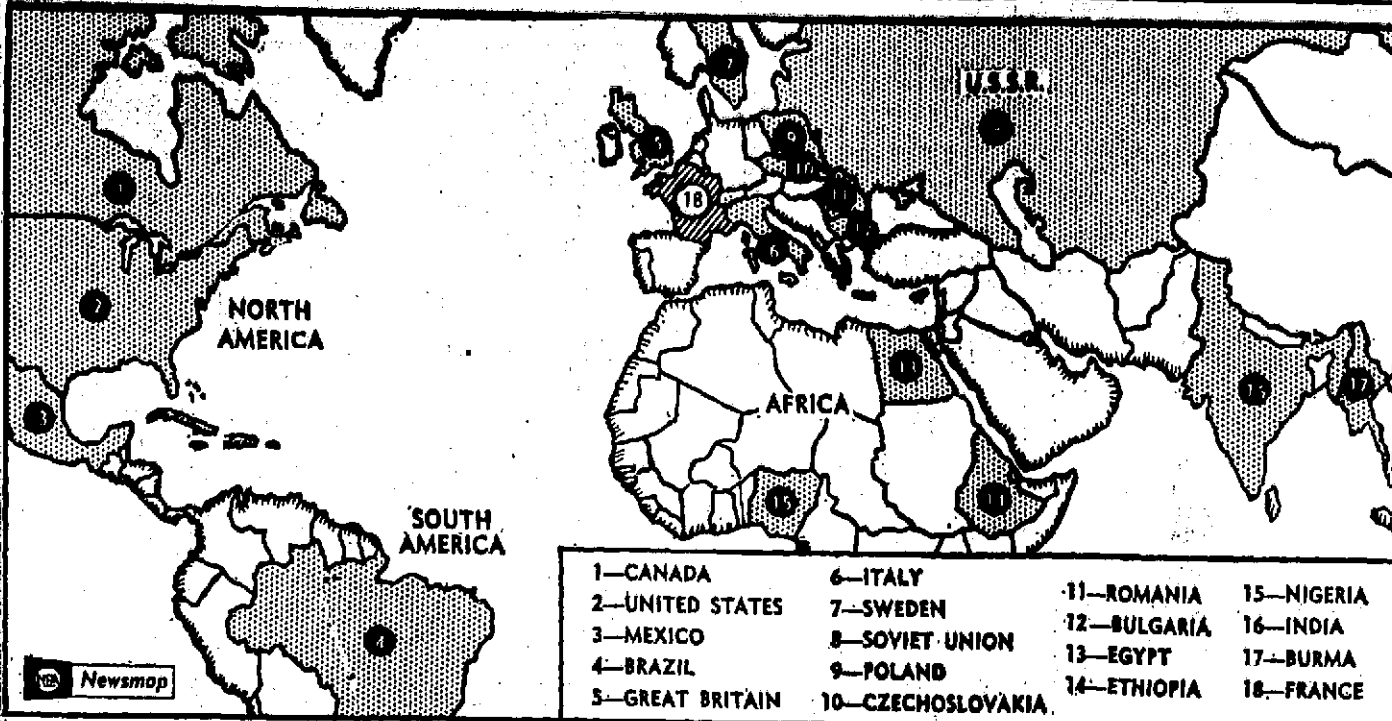

Then, should a human cell become abnormal—turning cancerous—Dr. Bjorklund expects the antibodies will recognize the cancerous cell, inactivating it.

The antibodies also will release from its natural state in the human blood a cell killer which will destroy the cancer.

That is the expected process if the new antigen works. The question seems to be: Are the abnormal cell fragments being used for injection similar enough to cancer cells to stimulate the proper antibodies?

Of the 120 persons in the test, 100 are receiving the experimental material. Each of five groups of 20 is getting a different number of doses. One group of 20 is not receiving any dose, but is being checked to see the normal level of antibodies.

Dr. Bjorklund is interested in this stage of the test to find which dosage will produce the proper

DISARMAMENT CONFERENCE—Premier Nikita Khrushchev's guarantee of Soviet Union participation has paved the way for a 17-nation conference on disarmament to open in Geneva, Switzerland, March 14. Russia's Andrei Gromyko, British Foreign Secretary Lord Hume and Secretary of State Dean Rusk will meet on East-West differences a few days before the disarmament talks begin.

The Newsmap shows how the 17 participating nations blanket the world. Originally to have included 18 countries France (18) boycotted the conference. President De Gaulle has said, however, that he would join a final agreement on a nuclear test ban if the talks achieve one.

Court Docket

Municipal Court of Hope, Ark. March 12, 1962:

CITY DOCKET

Isaac Young, Improper muffler. Forfeited \$16.50 cash bond.
Robert Williams, Speeding. Forfeited \$11.50 cash bond.
Perry Ware, Driving while intoxicated. Plea guilty; fined \$106.50 and 10 days in jail; \$50 of fine and jail sentence suspended.
Charles A. Sheppard, Offie Robinson, Hazardous driving. Forfeited \$16.50 cash bond.
Perry Ware, Leaving the scene of an accident. Plea guilty; fined \$56.50.
J. W. Stevens, Drunkenness.

level of antibodies—and how long the antibodies will last. Results of the test should be ready by late this fall.

If the proper dosage is determined, perhaps as many as 1,200 persons will be tested next year with that dosage. Some 120 of these would be checked to make sure that the antibody production is normal.

Then, if results are good with this group, the next year perhaps as many as 12,000 in the 60 to 70 age group would be given the material, and another 12,000 persons selected as a control or untreated group.

The success of the experiment would be measured by the cancer rate in the treated group against that in the untreated group.

Dr. Bjorklund's study is being supported by two Swedish insurance firms and the U.S. Public Health Service.

Arkansas Tech Posts a Win

PERRYVILLE, Ark. (AP)—Arkansas Tech took a 37-31 victory over Southwestern Bell of Forrest City in the only close contest of the state AAU women's basketball tournament here Wednesday.

In other games, Wonder State Egg of Little Rock rolled over Morrilton - Plumerville 54-23, and Beebe beat Sportsman's One-Stop of Stuttgart 45-32.

Tech pulled five points ahead in the third quarter after leading only 22-21 at the half. Tech's Barbara Pugh hit 19 markers, while Billye Jo Laws notched 14 for the losers.

Peggy Southerland scored 18 points for Wonder State and Denise Perry and Helen Nichols added 11 each. Barbara Davis had 10 for the losers.

Mary Robert plugged 19 and Nancy Tullos 14 for Stuttgart. Freddie Mulkey had 17 for Beebe.

STATE DOCKET

Buck Garrett, Passing a stop-ned school bus. Plea not guilty; tried, found not guilty.
Cunningham Lumber Co., No ACC Authority. Plea not guilty; tried, fined \$121.75; \$50 of fine suspended; defendant to pay costs of \$21.15.

Harold Plasterer, Doris Cash, Calhoun Packing Co., Everette Mudge, No ACC Authority. Forfeited \$121.15 cash bond.

Noah Ray Franklin, Drunkenness. Plea guilty; fined \$31.15.
Robins Floor Products, Overlength trailer. Forfeited \$46.15 cash bond.

H. W. Phillips, E. R. Collins, Trucking Co., Commercial Oil Transport, Texas Vermont, Overweight. Forfeited \$46.15 cash bond.

Compromise Suggested on Labor Pay

LITTLE ROCK (AP)—Gov. Orval E. Faubus sugared a plea for compromise on a proposed minimum wage increase for Mexican farm workers Wednesday with a promise to establish a Governor's Commission that would work state wide to improve conditions for migrant farm workers.

Faubus suggested no compromise figure in a telegram to Secretary of Labor Arthur Goldberg, but asked that Goldberg review testimony presented March 2 at a hearing on bracero pay in West Memphis.

A proposal for an hourly pay increase of 20 cents was protested at the meeting by about 600 east Arkansas farmers and businessmen. The proposal would raise bracero pay from 50 to 70 cents per hour.

Faubus said he knew the income of farm laborers was "tragically low, but said a compromise was needed for cotton farmers to operate normally this year.

The governor said his commission would work to improve living conditions and educational and religious opportunities for the migrants.

"Information made available to me, and presented at West Memphis, clearly reflects that wages for domestics is higher in counties where Mexican labor is utilized than in areas where no Mexicans are employed," Faubus' telegram said. "I am also advised that cotton chopping wage rates in Arkansas are higher than in Mississippi and Louisiana where no Mexicans are employed."

Faubus said surveys made by the Employment Security Division had established the need for outside seasonal labor, and stated that gross agricultural income had not changed in the past 10 years while machinery and other costs had skyrocketed.

Faubus told Goldberg Arkansas was joining in the Kennedy administration's "Employ the Youth" program and said he would appear on a 30-minute telecast March 26 to start the state's program. He said a special section to direct the youth program already had been established by the Employment Security Division.

The governor also mentioned the hiring of Fred W. Martin of Hot Springs to head a new minority groups program in the ESD.

Martin and his secretary, Mrs. Adell Terry Woods of Little Rock are the first Negroes employed in "white collar" jobs in the ESD. Their job is to advise Negroes on job opportunities open to them.

Cool Weather Will Continue

WASHINGTON (AP)—Colder-than-normal weather will continue through most of the nation for another 30 days, the Weather Bureau reported Wednesday.

Its 30-day outlook for the period extending to mid-April calls for below-normal temperatures over most of the nation, except for near to slightly above normal temperatures from the Great Lakes eastward and also in coastal areas along the Gulf of Mexico and Pacific Northwest.

Precipitation is expected to exceed normal over most areas except for subnormal amounts over the southern Plains and Pacific Northwest and near-normal amounts in the far Southwest, the bureau said.

This Bill Had to Be Amended

JACKSON, Miss. (AP)—Mississippi's House of Representatives had to amend a bill requiring that school buses sold for other uses must be painted a color other than yellow.

The original bill provided that the owners and operators should be painted, instead of the buses.

For Sheriff
JIMMIE GRIFFIN

County Treasurer
HARRY HAWTHORNE

Circuit Clerk
JIM COLE

County Judge
ORIE O. BYERS

For Tax Assessor
CARTER SUTTON

For County Clerk
J. D. "DICK" TURNAGE

Man to Trial for Slaying of Three

WAXAHACHIE, Tex (AP)—Authorities called a prospective juror list of 300 persons Tuesday for the trial starting Monday of Oscar A. Kernohan, 33, charged with slaying his wife, a stepson and an Arkansas hitchhiker.

Kernohan is scheduled to go on trial in connection with the slaying of his stepson, Roger Allen Gibbs, 2 1/2 years old.

Officers said he choked his wife to death in San Antonio, Tex., Dec. 18, 1960, and took her body to a place about 40 miles south of Pecos in far west Texas.

There Kernohan said he dug a grave, placed her body in it, and then shot the tot and buried him with his mother.

Farther on near Van Horn, Tex, he picked up a hitchhiker, Norman V. Cox, 21, of Benton, Ark, and shot him for the \$4 or \$5 he had.

Cox' body was found the next February in a culvert Kernohan led officers to the grave of his wife and stepson.

Appeals Intent to Rape Conviction

LITTLE ROCK (AP)—Clinton Kurck, 19, of near Seneca, appealed his four year prison sentence for assault with intent to rape to the Arkansas Supreme Court today.

Kurck was charged with rape in a November 6, 1961, attack on a Heber Springs girl A. Cleburne Circuit Court jury reduced the charge to assault with intent to rape and set punishment at four years.

Actress in Hospital

HOLLYWOOD (AP)—Barbara Stanwyck, 54, is in Cedars of Lebanon hospital, probably until Friday.

When the actress was admitted Tuesday, attendants said she would undergo minor surgery. Its nature was not disclosed.

vitae that are offered in the Phys Ed Department. This year the program consists of activities never presented in Yergin High before. The members of the physical education department wish for a mass attendance from parents, to help accomplish this, the program is free. The only fee or charge is your presence. Don't miss it.

OUR ANCESTORS

by Quincy

"I don't believe these fortune tellers' prophecies, Brutus. I'm doing business as usual this Ides of March!"

Chapter 34

She opened her eyes, to find Will incredibly there. He was holding her hand with one large hand, and patting her cheeks with the other.

"Jenny?" she asked sharply.

Will pointed. Jenny was safe and whole, though white and trembling, and tears streaked her cheeks. And she was being held, as tenderly as a child, by someone standing outside the carriage. Someone who was Race Nash.

Around Jenny and Race, and around the carriage a company of young soldiers made a protective barrier. Behind the soldiers, Hilda, in her daze saw the caps of the marchers, passing by.

She turned back to Will. "But how..."

"We got here just in time for Race to snatch Jenny from the carriage. That wouldn't have saved her, though. Louis did that. He put himself in front of Race and Jenny, just as the gun went off."

"But, Louis... Race! I just don't understand."

"I don't either, but never mind now. He looked at her closely. "I have to leave you a minute."

Will pulled her hands away gently. She saw him stop beside a crumpled figure on the pavement, and call to Race urgently.

Then he quickly put Jenny beside Hilda and knelt by the crumpled figure that was Louis. With great care, he untied the red bandana around the man's throat and unbuttoned his jacket, laying bare a great wound in Louis's chest.

Hilda thought she saw Race take something from Louis's body, but she couldn't see what it was. Then he leaped to the seat of his carriage, loosed the reins and drove off through the scattering crowds, his white shirt sleeves standing out sharply against the shiny, black carriage.

A large yacht was berthed at the end of the pier. Hilda knew it must be the Persophone when she saw Race's carriage was already tied up at a piling.

A uniformed deck hand quickly unhooked the chain at the top of

May Dispose of Public Facilities

LITTLE ROCK (AP)—The 1959 legislature cleared the way for Little Rock to dispose of recreational facilities if it doesn't want to integrate them Gov. Orval E. Faubus said today.

Act 224 of 1959 authorizes sale, lease or other disposal of public facilities, the governor noted.

Such disposal would be at the discretion of the governor in the case of state property, the county court for county property and the city's governing body for city property.

A group of Negro leaders filed suit last week to force integration of parks, golf courses, swimming pools, the auditorium and other recreational facilities in Little Rock.

"We made provisions for relief in cases of this sort," Faubus said.

The act, introduced by Lafayette County representative Mattie Hackett, was one of a package of anti-integration laws authored by former Atty. Gen. Bruce Bennett and introduced by various legislators.

Injuries Fatal to P. B. Man

HENDERSON, Tex. (AP)—C. B. Fausett, 65, of Pine Bluff, died in a hospital here today of injuries suffered in a highway wreck in which his wife was killed Saturday.

Fausett was manager of the Leo Nichols plantation east of Pine Bluff.

Survivors include a son, Morris of Decatur, Ga.; four brothers, Elbert L. Fausett, H. G. Fausett and A. C. Fausett, all of Little Rock, and Sam Fausett of Conway, and one sister, Mrs. Charles Gowles of Little Rock.

Give Up Allotments

LITTLE ROCK (AP)—Arkansas cotton farmers were asked Tuesday to turn in unused acreage allotments for re-apportionment. The request, from the state Agricultural Stabilization and Conservation Service, was accompanied by a proclamation from Gov. Orval E. Faubus declaring 1962 a "100 per cent cotton planting year in Arkansas."

Faubus said underplanting last year caused a loss of between \$12 and \$15 million gross farm income which he said could have stimulated "many more millions of dollars worth of business activity."

my character is too much like my Aunt Roseanne's, whose very name was unmentionable."

"But, your Aunt Roseanne was always very discreet, Jenny," Hilda heard herself saying, in a warning tone.

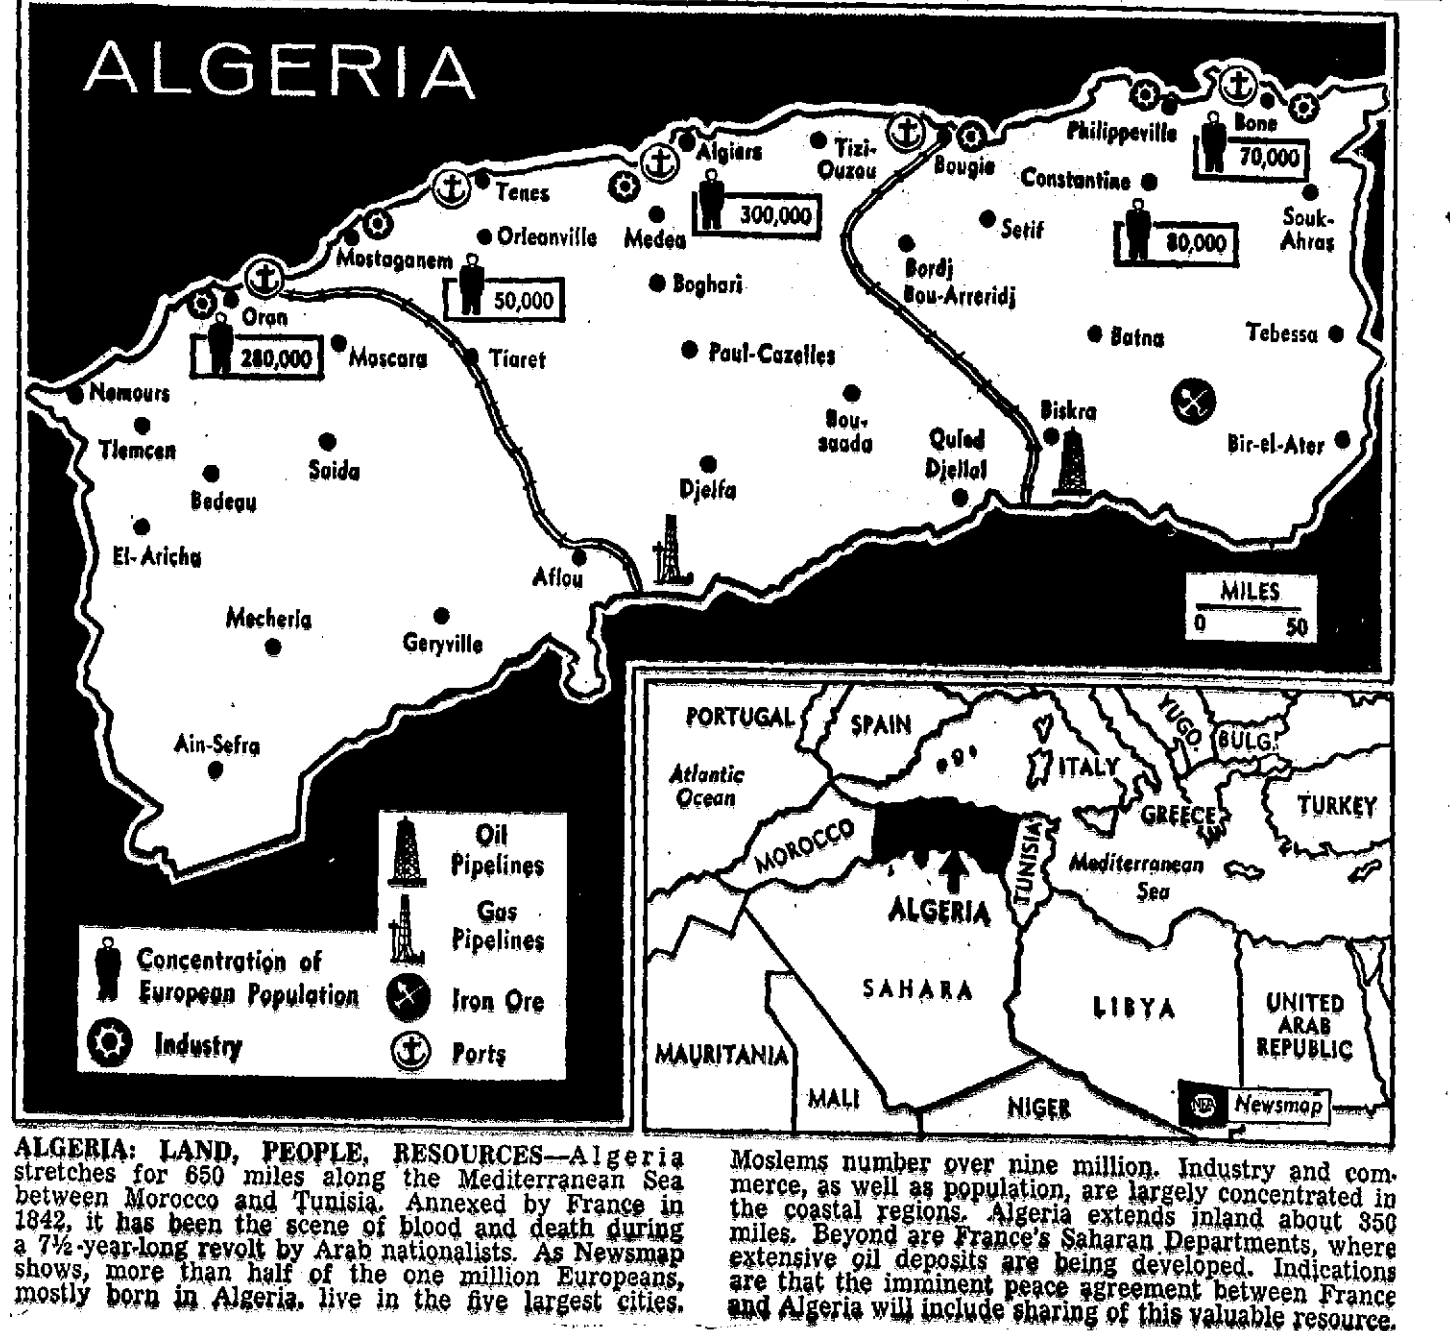

"Perhaps," Jenny agreed, without looking away from Race. "But I don't believe she was ever in a position quite like mine. It's been clearer and clearer to me that I've been, shall we say, to protected."

Race looked at her, it seemed to Hilda, with sadness and ever, compassion. "It may be more than you bargained for, Kitten," he said slowly, "but, if you must have it, your uncle has been embezzling your money, for the past two years."

"But it can't be," she whispered. "Uncle George is rich!"

"Not any more. He was wiped out on Black Friday, two years ago, when Jim Fisk cornered the gold market."

To Be Continued

ALGERIA: LAND, PEOPLE, RESOURCES—Algeria stretches for 650 miles along the Mediterranean Sea between Morocco and Tunisia. Annexed by France in 1842, it has been the scene of blood and death during a 7 1/2-year-long revolt by Arab nationalists. As Newsmap shows, more than half of the one million Europeans, mostly born in Algeria, live in the five largest cities. Moslems number over nine million. Industry and commerce, as well as population, are largely concentrated in the coastal regions. Algeria extends inland about 350 miles. Beyond are France's Saharan Departments, where extensive oil deposits are being developed. Indications are that the imminent peace agreement between France and Algeria will include sharing of this valuable resource.

THE REASON

FOR REPEATING THIS SENSATIONAL SALE

Last week during our 9 Hour Sale, hundreds of customers bought merchandise by the arm loads, car loads and truck loads but our huge stock was barely dented and since then we have received several new shipments from factories and have restocked from our warehouse. Also — many of our valued customers missed our 9 Hour Sale last week and were disappointed . . . so . . . Friday from Noon until 9 p. m. we are repeating this sensational event. Greater values and more stock than ever before — Miss this sensational sale and you will have only yourself to blame.

Nixon Claims He Was Told to Withdraw

NEW YORK (AP)—Richard M. Nixon says he was advised just before he went on nationwide television in 1952 to defend his debated political fund that wasn't wanted as Gen. Dwight D. Eisenhower's running mate in the year's presidential campaign.

Nixon says he was told that Eisenhower and his top advisers wanted him to announce on the radio his resignation as the Republican vice presidential candidate. The two-time vice president said that a subsequent misunderstanding with Eisenhower made him so angry that he actually dictated a telegram of resignation to the Republican national chairman. The telegram was destroyed by an aide, he says.

Nixon recounts these and other incidents in a book, "Six Crises," to be published by Doubleday & Co. on March 29. The first of three installments being published by Life magazine appears this week.

Eisenhower, sought for comment, is on a fishing trip in the Baja California region of Mexico and won't be back before next weekend, his secretary at Palm Springs, Calif., said.

Nixon said the political fund was "set up by my supporters in California to pay expenses for travel, printing and mailing of speeches, and extra clerical help—expenses which were strictly political and for which, therefore, I could not properly be reimbursed by the government." He was then a senator from California.

Nixon wrote that when some newspapers editorially urged him to submit his resignation as the vice presidential aspirant, he got no direct expression from Eisenhower and considered resigning at one point. But he said his wife, Pat, talked him out of it.

Nixon said that former New York Gov. Thomas E. Dewey and his own advisers suggested he take the situation to the American people via television. On the Sunday before the Tuesday telecast, he added, Eisenhower phoned him and said: "Good luck and keep your chin up."

But, said Nixon, "barely an hour before I was scheduled to leave for the TV studio a call (from Dewey) came through to my suite. From the tone of his voice, I could sense immediately that Dewey did not have his heart in what he had to tell me."

"There has just been a meeting of all of Eisenhower's top advisers," (Dewey) said. "They have asked me to tell you that it is their opinion that at the conclusion of the broadcast tonight you should submit your resignation to Eisenhower. As you know, I have not shared this point of view, but it is my responsibility

SPICED FRUITED TURNOVERS

A big plateful of these plump, little turnovers can make a coffee break quite an occasion. They look tender and inviting—and are. But the real fun comes when you pick one up and bite into its luscious filling.

You find a zippy blend of plumped prunes, tart-sweet and winery, chopped, canned apple slices and candied fruits flashed with grated orange rind, lemon juice and spices. The turnovers are great going for nibblers any time, and they're a real prize to serve either warm or cool—with coffee, tea or a glass of milk.

They are fun to make, too. In a few minutes you can make a plateful. Once the family discovers them, however, they'll likely last just minutes. Maybe you'd better bake two platefuls while you're at it.

SPICED FRUITED TURNOVERS

- 1 1/2 cups plumped* pitted prunes
- 1 1/2 cups canned, sliced apples
- 1/2 cup diced, candied fruits and peels
- 1 tablespoon grated orange rind
- 3 tablespoons lemon juice
- 1 cup sugar
- 1 teaspoon cinnamon
- 1/2 teaspoon nutmeg
- 1/4 teaspoon allspice
- Few grains salt
- 2 tablespoons flour

Flaky pastry (enough for 2-crust pie)
Chop** prunes; combine with apples, candied fruits and peels, orange rind and lemon juice; mix well. Combine sugar, cinnamon, nutmeg, allspice, salt and flour; mix well. Add to fruits; mix thoroughly. Roll pastry to 1/4" thickness; cut into 5" or 6" circles. Place fruit filling on one side of each round; moisten edge of circle with water. Fold pastry over filling; press edges together with tines of fork. Place on baking sheet; make a slit in top of each to allow steam to escape. Bake in moderately hot oven, 425 degrees, 15 to 20 minutes, or until golden brown. Makes 12 to 14.

- * To plump prunes, cover 1 pound of prunes with 1 quart of water and let stand overnight.
- ** The simple way to chop prunes is to cut meat from pit with kitchen shears.

Foreign Aid Bill Hits a Hard Road

WASHINGTON (AP)—Fowler Hamilton, foreign aid director, today started the administration's big foreign aid program on its hard road through Congress. He testified that other Western nations have increased their assistance programs 40 per cent in the last five years.

In some cases, he said, those countries are paying out a higher percentage of their resources for aid than the United States is. Hamilton, head of the Agency for International Development, also said that several countries which have been getting U.S. grants, or gifts, will now receive only loans.

Hamilton was the first witness as the House Foreign Affairs Committee began hearings on President Kennedy's foreign assistance program. In a special message Thursday, Kennedy asked for \$4,678,500,000 for the fiscal year starting July 1, about a billion dollars more than Congress voted last year. Congress is expected to do some trimming this year.

In his prepared testimony, Hamilton said the request money was vital in manning the front line against Communist aggression and warding off worldwide Communist attempts to create or exploit economic and political instability. Nixon said he did not learn immediately that Eisenhower had

Job Security Prime Aim of Labor

By SAM DAWSON
AP Business News Analyst

NEW YORK (AP)—Job security is the prime goal of much of the labor force today. And the other side of the coin is what to do about those who lose their jobs anyway. Both sides swing into focus this week.

Retraining is one cure proposed. A shorter work week to spread the jobs is another. Still others are curbs on automation and restrictions against foreign goods that could hurt American factories and thus cost jobs.

The front pages are full of these items:

Job security is one of the big stumbling blocks as the steel labor talks are renewed in Pittsburgh. The issue is also behind labor's rail and air transportation. It is the prime reason the rail unions fight the proposed changes in work rules, which management brands as featherbedding.

Worker training is to get a wider tryout through the \$434-million voted for it by Congress.

And at the same time Labor Secretary Arthur J. Goldberg is telling Congress that the administration bill to move toward freer world trade, especially with the industrialized European Common Market, could cost 90,000 jobs in some American industries hit by higher imports. He quickly adds that the program is expected to open up many times that number of jobs by increasing American exports.

All the current news items stress how complex is the problem of moving into a new age at home and in world contacts without hurting too many individuals.

The federal training program will be aimed at two kinds of workers—older ones whose particular skills have been made obsolete either by replacement by machines or by changing tastes of consumers; and younger workers, increasingly entering the labor force, who may have little skill at all or much of an idea of what skills are in demand.

A number of corporate and community training programs have been tried. Critics say the results often have been poor. Many older jobless persons don't want to move to unknown work fields or strange communities where different kinds of jobs might be found. Some older persons don't learn new tricks easily. Many of the jobs going begging are for skills beyond ordinary training programs to develop.

But the administration hopes that a broad attack on the problem will work.

Labor's plans for spreading the work through shorter work weeks or easing the pain by higher benefits during layoff periods is often attacked by management as too costly. Management also argues it can't hold price lines unless it cuts labor costs by more mechanization. It points to the increasing costs of unemployment benefits and pensions and medical care.

The free trade issue splits both labor and management. Where imports could hurt, both the companies and their unions tend to be loud in protest against the administration plan. Where a chance is seen for more exports—meaning more jobs and more profits—the plan draws supporters.

Development Group to Meet

NEWPORT, Ark. (AP)—The Northeast Arkansas Area Development Council, which is designed to promote industrial growth, will hold its organizational meeting here Thursday.

Representatives of 12 cities and chambers of commerce from communities in an eight-county area will meet to elect officers and approve a charter and by-laws.

Charles Frierson, a Jonesboro banker, will be acting chairman of the session. Paul Brann of Little Rock will speak on industrial expansion.

Awards Damages Against Gazette

LITTLE ROCK (AP)—A Pulaski Circuit Court jury awarded \$25,000 to Prairie County Deputy Sheriff H. L. (Bud) Forrester Tuesday in his libel suit against the Arkansas Gazette.

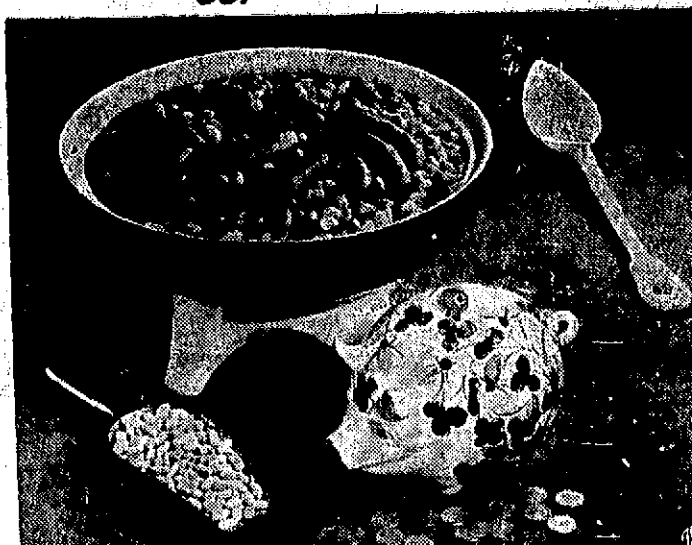

The jury voted 11-1 for the compensatory damage award. It denied Forrester's request for \$100,000 in punitive damages.

praised him for his performance and that the general wanted to meet him the next night in West Virginia. It was in the absence of this knowledge that he dictated the telegram which the aide destroyed, he said.

Soon afterwards, friends calmed Nixon down and he flew to Wheeling, W. Va., where Eisenhower greeted him with the now famous endorsement: "You're my boy."

Nixon, the unsuccessful Republican candidate for president in 1960, now is a candidate for the Republican nomination for governor of California.

Piggy Bank Bean Pot

Piggy Bank Bean Pot is a one-piece meal as indispensable as the "little black dress". Made of Idaho's prize large white Great Northern Beans, topped with little pig sausage links or snippels of broiled bacon, and baked in a zesty sauce, it needs only a tossed green salad, apple sauce or pickled crabapples, and hot corn muffins for accessories. This is good for pot luck suppers, cook-ins, cook-outs, around-the-calendar Good Eating. Here are 8 hearty servings:

First step

- 2 cups Idaho Great Northern (large white) Beans
- 6 cups water
- 1 teaspoon salt
- 1 tablespoon butter
- 1 fat clove garlic, if desired

Wash beans, add water. Soak overnight or bring beans and water to boiling point. Boil 2 minutes. Remove from heat, cover. Let stand 1 hour. To cook, bring beans and soaking water to boiling point. Add salt and butter, to keep down foaming, garlic on a wood pick for easy removal. Cover. Reduce heat; simmer about 1 1/2 hours or until tender but not mushy.

Second step

- 1/2 cup light molasses
- 1/2 cup catsup
- 1/2 cup chopped onion
- 1 teaspoon horseradish
- 1 teaspoon dry mustard
- 1/2 teaspoon coarse-ground black pepper
- 6 slices bacon, browned and 3 tablespoons bacon drippings OR
- 1/2 pound link sausage (about 9) browned

If using sausage, brown. Do not use drippings. In using bacon, pan-fry or broil until browned but not crisp. Set aside. Mix all other ingredients together. Turn the beans and bean liquid into a 2-quart casserole. Stir in above mixture, adding bacon drippings if bacon is used. Top with the browned sausage or the bacon snipped into fourths. Cover tightly. Bake in a moderate (350 degrees F.) oven for 2 hours, adding a bit of hot water if more sauce is desired. Kind to your budget; this dish!

What to Do With Profits of Business

By HAL BOYLE

NEW YORK (AP)—Every now and then a business firm has an unusually good year and the question arises—what to do with the extra profit bonanza?

A proposal to pass it on to the stockholders is quickly rejected by cooler heads. After all, that would only spoil them—and set a dangerous precedent.

"Why don't we spend the dough modernizing the office?" suggests someone. "The place is looking a little shabby, and there are a number of things we could do to make it more efficient."

"Good idea," says the boss crisply. "We'll start at once."

It does sound like a good idea at first. Who wouldn't be in favor of a neater, shinier, more up-to-date office?

Well, it turns out—just about everybody.

To a veteran employee, his office surroundings are his home away from home. He likes things the way they are. He looks upon any proposed change as a potential management plot against his welfare and comfort.

If you have ever survived an office remodeling project, there are a few reactions you are probably familiar with.

When the first workman shows up, a wild rumor spreads that the firm has been sold to a competitor.

A second rumor runs fast on the

heels of the first. A giant new automation machine is being installed that will throw half the employees out of their jobs.

To calm these fears, the boss backs up a brief note on the bulletin board explaining there is nothing to worry about—the place is just being remodeled to make everybody healthier and happier on the job.

A grievance committee calls on management to explain why, if this is so, the union wasn't called into consultation on the remodeling plans.

The boss spends a week pointing out that, if he asked each employee his individual preferences, the job would never get done.

Six 25-year-men threaten to quit if they can't keep their old swivel chairs. They say the new swivel chairs don't fit.

A delegation from the female employees calls on the personnel head to complain they don't like the fabric on the new couch in the ladies' room.

In the midst of the redecorating, the boss takes a month's vacation—just to get away from it all.

When he gets back the job is done, the office staff has settled down, and the head of the employees' grievance committee grumbles to him:

"What took management so long to make up its mind to let a little light and air into this office? It used to be like working in a dungeon."

India Absorbs Goa

NEW DELHI, India (AP)—The lower house of India's Parliament today unanimously passed a bill formally incorporating Goa and the other former Portuguese enclaves into India.

Solar Observatory Sending Back Data

WASHINGTON (AP)—Delighted space officials say the orbiting solar observatory is sending back information scientists have always sought about the sun's rays and wave lengths. The data could provide clues about the origin of the universe.

And, they say, the spacecraft called OSO-1 is transmitting the best radio signals yet received from a satellite.

Officials of the National Aeronautics and Space Administration reported at a news conference Tuesday on the satellite, launched from Cape Canaveral, Fla., March 7. By noon Tuesday it had completed 90 orbits at 96.15 minutes per orbit on the most circular path yet achieved by a U.S. spacecraft, ranging from 343 1/2 to 370 miles above the earth.

Japs Want Islands

TOKYO (AP)—Japan's house of Parliament unanimously approved resolutions today urging the government to press for the return of the U.S.-administered Ryukyu and Bonin islands and the Soviet-held Haboami, Shikotan and Kurile islands.

Plead Guilty to Kidnap, Robbery

MEMPHIS (AP)—A Texas man and his woman companion pleaded guilty Tuesday in federal district court to kidnapping a liquor store clerk during an armed robbery. Both drew 15-year prison sentences.

Charles T. Slater, 21, of El Paso, and Billy Jean Holton, 30, of Abilene, Tex., still have state charges of armed robbery and kidnapping against them.

The clerk, Max Phillips, was taken from a Memphis liquor store at knifepoint and released unhurt near West Memphis, Ark.

His abductors were arrested Jan. 15 at Fort Worth, Texas.

Hospital Addition

LITTLE ROCK (AP)—Arkansas Baptist Hospital here has announced a \$1 million addition that will boost its bed capacity to 500 and add a new laboratory. The plans, approved Tuesday by the hospital Board of Trustees called for addition of two floors with 67 beds on each floor. A loan for the project must be approved by the Baptist State Convention.

NEW RICE LAND VITAgrain RICE
cooks tender, fluffy, separate...
rich in vitamins and flavor!

GROWN AND PACKED IN ARKANSAS

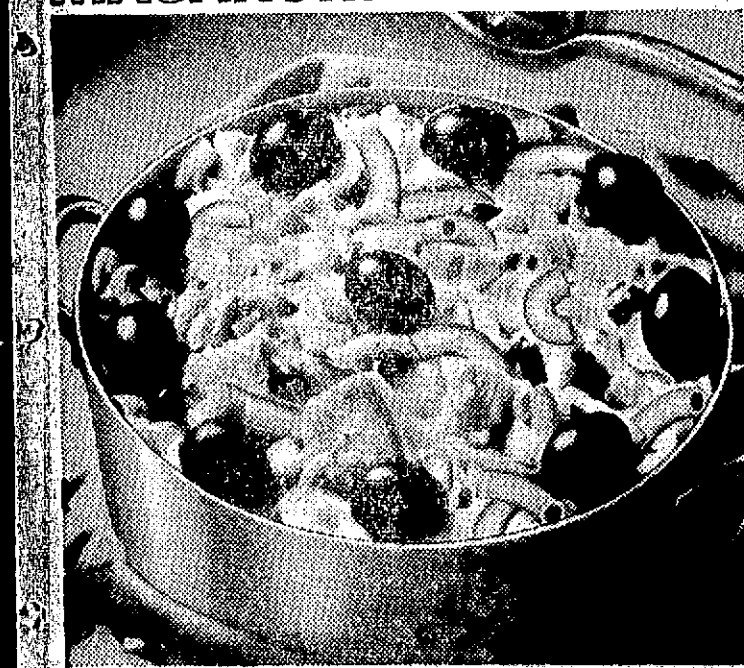

From RICE LAND a wonderful new rice! Even if you forget and overcook it, VITAgrain comes out fluffy and tender... every grain separate! You can even cook and refrigerate VITAgrain, reheat it days later, and every grain remains separate, tender, fluffy... as it was the moment you cooked it.

The secret's in the parboiling. And grain separation isn't the only benefit. Parboiling locks in the natural vitamins and flavors ordinarily lost in milling... gives you greater food value.

Try RICE LAND VITAgrain this week. It cooks perfectly every time!

ARKANSAS RICE GROWERS COOPERATIVE ASSOCIATION
Stuttgart, Arkansas

SKINNER GOLDEN GLOW MACARONI makes quite a difference!

Tuna-Macaroni Buffet Casserole

- 2 cups SKINNER Elbow Macaroni
- 1 cup commercial sour cream
- 1/2 cup milk
- 1/4 teaspoon crushed oregano
- 2 6 1/2-oz. cans tuna
- 1/2 cup sliced ripe olives
- 3/4 cup sliced mushrooms
- 1/4 cup chopped green pepper
- 1/4 cup chopped cashew nuts
- 1 cup grated process American cheese

Cook macaroni as directed on package. Drain. Combine sour cream, milk, oregano, tuna, ripe olives, mushrooms, green pepper, and cashews. Mix well. Carefully fold in the cooked macaroni; turn into a buttered 2 1/2-qt. casserole, top with grated cheese. Bake in 350 degree oven for 30 minutes, uncover casserole for last 10 minutes of cooking. Serves 6.

Next time you're at the store, compare the color of Skinner Macaroni, Spaghetti and Noodles with other brands. You'll see that Skinner products have a richer, more appetizing color—a golden glow of quality. And they cook firm, yet tender. Reason: Skinner uses 100% amber durum wheat. Many macaronis don't. It makes quite a difference.

SKINNER MACARONI WITH THE **golden glow** OF QUALITY

Earnings and Hours More Favorable

WASHINGTON (AP)—Factory jobs, pay and hours all increased in February opposite to the winter seasonal trend, the Labor Department announced today.

Analysis of last month's employment report, which showed that the unemployment rate fell from 5.8 per cent to 5.6 per cent, brought equally favorable news in earnings and hours of work.

The department said that the work week lengthened from 39.7 hours in February to a full 40 hours, in a month in which it was expected to shorten. The average factory worker now is getting one full hour more employment a week than at the bottom of the recession a year ago, and the work week now is longer than at this season in any of the past five years.

Average weekly earnings in-

creased slightly to \$95.20. This was almost \$6 higher than a year ago, but only slightly ahead of January's earnings, the department said.

Employment on all industry payrolls stood at \$53,747,000,000, a slight increase from January. A decline had been expected. Officials took satisfaction also in an increase of 55,000 in manufacturing employment, concentrated in the metals and metal-using industries.

Construction employment de-

clined by only 29,000 in spite of harsh weather; the seasonal drop usually amounts to about 100,000.

As a result, the over-all force of workers on nonfarm payrolls climbed to a record for February and stood 1.2 million above the bottom-of-the-recession level of a year earlier. The payrolls were, in fact, at the prerecession level of May 1960.

About 400 locomotives are ordered each year by American railroad companies. All are diesels and turbine-electric units.

NEW YORK (AP)—Those snow shovels purchased in such a desperate hurry here last winter did a lot of standing in the corner this winter.

There wasn't much snow to shovel.

In fact, it didn't snow enough in New York for the city to try out its two new \$35,000 snow melters—bought last winter, of course.

The machines are designed to replace the hauling operations in snow removal. Since there was very little snow to remove, sanitation department officials took one to Worcester, Mass., to test it. It worked fine.

The winter of '60-'61 was one the grandchildren a couple of generations ahead will be hearing about. Weather Bureau records show a snowfall of 57.3 inches and 56.1 inches of that fell in December, January and February. During those months this winter, 17.9 inches fell.

Those grandchildren undoubtedly will hear of the '61-'62 winter's wind storm of last week which caused extensive damage on the Atlantic Seaboard. But that was a storm which could have occurred in any season, any time when the sun and the moon are both pulling the tides high and a northeaster with winds up to 80 miles an hour sweeps in from the sea.

New York City spent \$22.5 million last winter to remove the snow. The cost so far this winter has been \$1.5 million, a sanitation department spokesman said today.

The spokesman said most of this winter's snow melted as it fell, or was of such little depth that it presented no real problems.

But last winter's snows — one fell measuring 17 inches — were something else again. Ordinary traffic was banned from the city's streets for the first time in history. Eight-foot snowbanks were piled along Manhattan streets.

The city was locked in a deep freeze that lasted for days and the snow lasted for days.

It was the city's worst winter in 39 years, except for the winter of '47-'48 when 63.5 inches of snow fell.

N. Y. Snow Shovels Still Untried

NEW YORK (AP)—Those snow shovels purchased in such a desperate hurry here last winter did a lot of standing in the corner this winter.

There wasn't much snow to shovel.

In fact, it didn't snow enough in New York for the city to try out its two new \$35,000 snow melters—bought last winter, of course.

The machines are designed to replace the hauling operations in snow removal. Since there was very little snow to remove, sanitation department officials took one to Worcester, Mass., to test it. It worked fine.

It was the city's worst winter in 39 years, except for the winter of '47-'48 when 63.5 inches of snow fell.

TV Hasn't Produced a Hero Writer

By CYNTHIA LOWRY
AP Television-Radio Writer

NEW YORK (AP)—Television networks are currently spending big money and ordering their press agents to beat the drums loudly about the way they are covering current events.

Documentaries, "CBS Reports," "White Papers," editorial comment and lectures dot the prime evening time schedules like butter on a casserole. "David Brinkley's Journal" is described by NBC as a "news column." Network correspondents are stationed around the world.

But television has yet to produce one series with an "electronic journalist" (as it likes to call him) as the glamorous hero. No, the newspaper correspondent or reporter, even the magazine writer, remains the stock heroic figure of this adventure-story area.

This season ABC seems to have a corner on beautiful, glamorous journalists. There's the fun-loving, adventure-prone threesome on "Follow the Sun," who don't seem to have any deadlines or even spend much time taking notes or writing their magazine articles. There's columnist Paul Marino of "Target: The Corruptors," whose activities are more interesting than the plots. Our hero races around the sin-spots making righteous speeches and exposing wrong-doers, but rarely is he seen columning—and then it's talking into a dictating machine, without even referring to notes.

The way television—and movies—portray newspapermen is an unending source of amusement and frustration to members of the profession. Probably the reason television has ducked trying to glamorize its own electronic chips off the newspaper block is that network newsmen would complain they were being "boobied," as they say in television.

So how about an adventure series about a television correspondent, traveling all over with his mobile equipment, his technical crews, director, producer and writers?

Wally Cox's long-term contract with NBC, which has kept him pretty thoroughly out of living room focus, apparently has finally run out. He turned up in an ABC series last Sunday and now has been signed for a comedy variety show on that network April 6.

Salvaging Lead a Big Problem

MEMPHIS (AP)—Rivermen today pondered a complex salvage problem created when a barge dumped 2,800,000 pounds of lead, valued at \$250,000 at the foot of Mississippi River bridge pier.

The 24-inch square ingots of lead, each weighing a ton, fell in water 110 feet deep, with an estimated 20 feet of soft sand and silt at the bottom.

It happened Tuesday when a "tow train" of 11 heavily loaded barges rammed the granite pier. No one was hurt. The barges are 195 feet long, 40 feet wide. Five were loaded with lead, six with rock.

One of the barges, ripped loose from the controlling cables, cap-sized about 1,250 feet downstream from the bridge, dropping 1,000 tons of rock.

Plant Facilities

FORT SMITH, Ark. (AP)—Fort Smith is making arrangements for application with the Community Facilities Agency for a grant for preliminary study on sewage treatment facilities, Commissioner

100th to Expand at Ft. Chaffee

FORT SMITH (AP)—The 100th division (training) plans to expand its activities at Ft. Chaffee in May under the Army's new basic training program.

Brig. Gen. Albert H. Noxum, assistant division commander, said a battalion headquarters and four companies would be set up from the 400th regiment to teach the new six week basic course. The program will use reserves as instructors.

Lt. Col. Jack L. Cook of Lexington, Ky., commander of the 400th division's 2nd battalion, will command the training battalion.

Hugh Brewer said. The state Board of Health urged the city Monday to arrange financing for the facilities as soon as possible.

Just Dip, Roll And Bake

Dip, roll and bake. That is all you do when creating America's version of an "old world" treat, Veal Parmigiana. Dip succulent veal chops in smooth evaporated milk, roll them in corn flake crumbs seasoned with grated Parmesan and Ac'cent. Ac'cent emphasizes the delicate natural veal flavor and makes it taste juicier too. Bake in a foil-lined pan for easy clean-up. There is no watching, no turning, and no worrying to do. Thirty minutes later add strips of Mozzarella cheese and allow an extra ten minutes in the oven. Serve with a tomato sauce and Italian bread sticks, and listen to the "bravissimos" voiced by your American family.

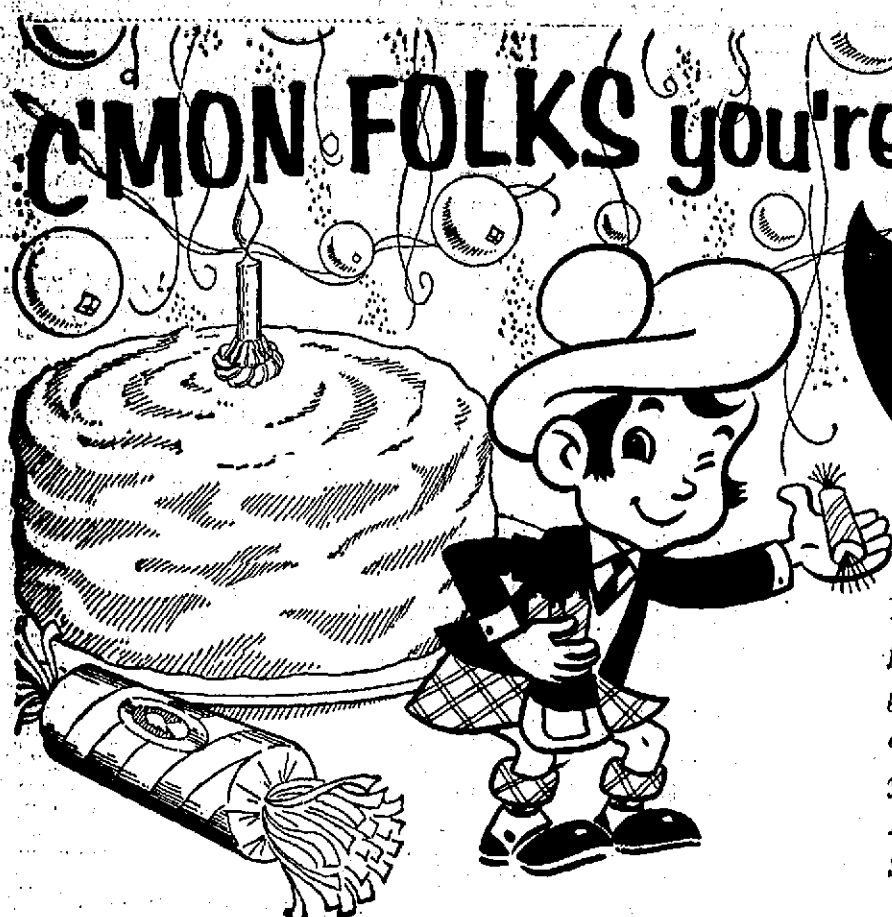

Corn Crisped Veal Parmigiana

1/2 cup corn flake crumbs	1/4 pound Mozzarella cheese, sliced
1/2 cup grated Parmesan cheese	1 can (8 ounces) tomato sauce
1 teaspoon Ac'cent	1/2 cup grated Parmesan cheese
4 center cut veal chops	
1/2 cup evaporated milk	
Aluminum foil	

Combine corn flake crumbs, Parmesan cheese and Ac'cent. Dip veal chops first into evaporated milk, then in crumb mixture, turning to coat both sides. Place on aluminum foil lined baking sheet. Bake in a moderate oven (375°F.) 30 minutes. Top with cheese slices; bake 10 minutes longer. While chops are baking, heat tomato sauce. Place hot cooked veal chops on serving dish; spoon tomato sauce over veal. Sprinkle with Parmesan cheese. Yield: 4 servings.

COME FOLKS you're all invited to **SANDY'S BIRTHDAY PARTY**

... Celebrating The Fourth Anniversary
Of Gold Bond Stamps at SAFEWAY

Your SAFEWAY Store is having a special celebration this week. It's the fourth anniversary of the Gold Bond Stamp Plan in Arkansas, and we've gone all out to make it a real budget-pleaser, too! Just look at the lineup of items in this ad... FREE Gold Bond Stamps, Special Prices, in fact, you'll find money-saving bargains in every department. Join in with us in this Anniversary Celebration which means, "Happy Celebration to us, Happy Savings to you."

Homemade Good Raisin Apple Cobbler Made In Minutes

This "new fashioned" fruit cobbler combines the delightful taste of plump raisins with the sweet tang of apples. The dough is quickly made with biscuit mix, then sprinkled with a crumbly topping that becomes crunchy and brown as it bakes. It's an easy, delicious dessert that's homemade good.

Crunchy Raisin Apple Cobbler
1/2 cup dark or golden raisins
4 cups thinly sliced cooking apples
3/4 cup water
1/2 cup sugar
1 tablespoon flour
1/2 teaspoon cinnamon
Dash of salt
Biscuit Dough
Crumbly Topping

Combine raisins, apples and water; heat to boiling. Blend together sugar, flour, cinnamon and salt. Stir into boiling fruit and boil one minute. Turn into 8 1/2-inch round baking dish. Cover with dough and sprinkle with topping. Bake in hot oven (400 degrees F.) 30 minutes, or until crust is browned and apples are tender. Makes 6 to 8 servings.

Biscuit Dough: Combine 1 cup biscuit mix and 1 tablespoon sugar. Stir in 1/2 cup milk and 2 tablespoons melted butter or margarine. Pat to circle on floured board, and roll to fit top of dish.

Crumbly Topping: Mix 2 tablespoons biscuit mix, 1 tablespoon granulated sugar and 1 tablespoon soft butter or margarine together until crumbly.

Job Training Bill Facing a Challenge

By JOHN BECKLER

WASHINGTON (AP)—Passage of a \$435-million job training bill has left the administration facing a big challenge—and a big question.

The challenge is whether a free economy can provide jobs for an ever-growing work force in a time of swift technological change that has quickened the pace of automation.

Congress gave the administration a means of facing up to the challenge Tuesday in the three-year manpower training bill. It also handed on the big question implicit in the bill: Training for what?

With unemployment persisting at over 4.5 million, with new workers joining the labor force in record numbers as the post World War II baby crop matures and machines taking over more and more jobs once held by men, the

question must be answered if the challenge is to be met.

The administration hopes the answer lies in the bill, which it has ardently sought. Passed with strong bipartisan support, the measure has two main provisions.

The first authorizes the secretary of labor to make a survey of the nation's manpower—the skills needed and those available—and then to set up training programs in those skills found to be in short supply.

The second provides for the payment of weekly training allowances equal to the unemployment compensation payment in the trainee's state, for a maximum of 52 weeks.

Those seeking training would apply at the state employment office in their area. There they would be tested to see what skills they are capable of learning. If they are judged trainable they would then be referred to a training course.

In addition to unemployed workers, those eligible for training include members of farm families with a total income of less than \$1,200 a year and youths between 16 and 22. Youngsters between 16

Motor Touches Off Missile Fire

TOPEKA, Kan. (AP)—A smoking motor deep underground touched off a tense alarm Tuesday at an Atlas missile launching site.

Forbes Air Force Base reported no explosion, no fire, no injuries and apparently little damage. The trouble was at site No. 2 near the town of Worden, 18 miles southeast of Topeka.

and 19 would get no training allowance and those between 19 and 22 would get \$20 a week.

Money in the bill is judged to be enough to train a million persons.

The measure authorizes \$5 million to get the manpower survey under way at once. The actual job training program is to start July 1 with an initial allotment of \$100 million.

President Kennedy is expected to sign the bill promptly. But it will probably be some time before any answers will be forthcoming to the main question, and to the central challenge.

Monster May Not Be From the Ocean

SYDNEY, Australia (AP)—Heat tests of flesh samples of a giant carcass found 20 months ago on Tasmania's west coast discount a theory the monster came from the ocean depths, a scientist said today.

The 18 by 20 foot creature weighing several tons, likely will remain a mystery at least until scientists make an expedition to the isolated beach next weekend to examine the bone structure, if any.

A. R. Haly, senior research officer of the Commonwealth Scientific and Industrial Research Organization, said that in a heat test the sample shrank at about 68 degrees—slightly lower than that for whale flesh.

"This suggests that the monster did not come from the ocean depths," Haly said. "It further suggests that the creature did not exist in a cold water area like

JFK's Mother Resting Well

BOSTON (AP)—Mrs. Joseph P. Kennedy, 71-year-old mother of President Kennedy, was reported resting comfortably today at St. Elizabeth's Hospital following a hernia operation.

The operation was performed Monday by Dr. Roy J. Heffernan, a gynecologist and Kennedy family physician. He said Mrs. Kennedy withstood the hour-long operation well. After an afternoon visit, the doctor reported she was in excellent condition.

There were no signs of malignancy, he said. The wife of the former ambassador to Great Britain had been troubled by a pelvic hernia. She has been under treatment by Dr. Heffernan since last September.

In Hobart, scientist Bruce Molison who made a preliminary examination of the carcass on the beach, said he probed deeply into the top and side of the monster and failed to find any bone structure.

Mrs. Kennedy delayed having the operation because of the condition of the former ambassador who suffered a stroke at Palm Beach, Fla. He is convalescing now in Palm Beach.

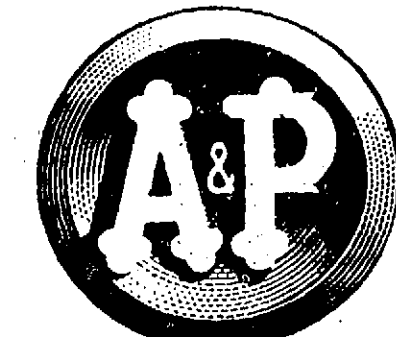

Edward M. Kennedy, youngest brother of the President, and his wife, Joan, visited the hospital several hours after the operation.

Airman Credited With Saving Plane

LITTLE ROCK (AP)—The Little Rock Air Force Base has credited Al Charles H. Gates with a "save" in guiding a jet trainer to a safe landing after an emergency 21 miles away.

The aircraft began to vibrate severely at 19,000 feet last Nov. 1. The pilot reduced speed and asked for aid. Gates responded by making radio and radar contact and guided the trainer back to the base.

Maj. Robert O. Lorenzi, commander of Gates' 1824th Communications Squadron, presented Gates a "Save Certificate" citing his professional competence in recognizing and handling the emergency.

What Science Is Doing in Medicine

By THE ASSOCIATED PRESS

A pain chemical, remedies for hiccups, and the role of eye color in skin diseases are subjects of medical inquiry.

Why Pain?

Scientists believe they have isolated the main chemical in the body responsible for producing pain. Named neurokinin, it was extracted from areas of skin which had been intentionally injured.

Injected into normal skin sites, neurokinin produces pain and inflammation, report Dr. Loring F. Chapman and associates of the University of California at Los Angeles. Neurokinin may be released by nerves in the injured area, thus lowering pain thresholds, Dr. Chapman says.

Banishing Hiccups

Just about everyone has his sure-fire remedy for hiccups.

The most important thing, though, in stopping them is to relax, says Today's Health magazine, and its experts offer other tips.

For babies, give them sips of warm water, hold the child, and pat his back.

In older children and adults, one of the best remedies is to lie down and relax.

It can also be helpful to drink water slowly; breathe in and out into a paper bag to raise the level of carbon dioxide in the blood; and if an upset stomach brought on the hiccups, take a teaspoonful of baking soda in water.

Eye Color and Skin Disease

Persons with brown eyes seem

River Navigable to Tulsa by 1970

LITTLE ROCK (AP)—Arkansas River boosters were told here yesterday that the river should be navigable all the way to Tulsa by 1970.

Col. Carroll H. Dunn, the new southwestern division Army Engineer, said the date was realistic, and that he was skeptical of an earlier completion date.

Dunn, an Arkansas native, was in Little Rock to address a luncheon of the Arkansas River Basin Association and the Pulaski County Flood Control and Navigation Association.

"This is a project that requires a lot of designing and engineering work before it becomes a reality," Dunn told the group. "If we rush it we can make mistakes."

Dunn, who took over his new post March 1, was formerly director of construction at the nation's Titan II missile bases in Arkansas, Kansas and Arizona.

to be afflicted more often than others with skin diseases due to inheritable allergic tendencies, says Dr. Robert G. Carney, University of Iowa dermatologist.

In two studies based 10 years apart, he and associates noticed that almost two-thirds of patients with atopic dermatitis, the familiar type of skin ailments, had brown eyes. Dr. Carney made other comparisons between eye color and incidence of the skin ailments, and found the same thing still true.

Eye color may serve as a rough index of skin pigmentation, he says. The skin of dark-skinned persons perhaps tends to become leathery and hardened, and more susceptible to ailments than that of lighter-skinned individuals.

Tuna In The Chips

Tuna chips casserole offers a new way to serve an old Lenten favorite. Its ease of preparation will appeal to the cook; its good flavor and good nourishment will appeal to everyone in the family.

Two cans of tuna in vegetable oil, a can of creamed soup—mushroom, celery or asparagus—and a little milk do the trick. Diced pimiento and Worcestershire sauce add nice color and tang, while corn chips or crushed potato chips dress up the casserole and provide just the needed touch of crispness.

In this form, or many others, tuna makes an excellent choice for main dishes during Lent—or, for that matter, at any time of year. It supplies as much protein as red meat or poultry, and valuable minerals as well. Its natural oil, combined with the vegetable oil in which it is packed, contributes desirable polyunsaturates to the diet. And, as every experienced homemaker knows, tuna also gives you its interesting flavor and convenience at a remarkably low cost.

You can put together this appetizing casserole in a few minutes and bake it at once; or you can assemble it early in the day, refrigerate it until baking time and add the chips just before putting it in the oven.

Tuna Chips Casserole
2 cans (6 1/2 or 7 ounces each) tuna in vegetable oil
1 can (10 1/2 ounces) condensed cream of mushroom, celery or asparagus soup
1/2 cup milk
1 tablespoon Worcestershire sauce, optional
1 tablespoon diced pimiento
1 cup corn chips or crushed potato chips

Mix tuna with soup, milk, Worcestershire sauce and pimiento. Turn into 1 1/2 quart casserole. Sprinkle chips over top or around edge. Bake in a moderate oven (375°F.), 25-30 minutes. Yield: 4 servings.

Doubts He'll Again Name Harry Parkin

LITTLE ROCK (AP)—Governor Orval E. Faubus said today he doubts that he would re-appoint Harry Parkin to the State Highway Commission if Parkin resigned to bid on state printing contracts.

Faubus said he had heard an unconfirmed report that Parkin might resign, bid on printing contracts and, if unsuccessful, consider re-appointment to the commission if offered.

The Arkansas Supreme Court recently invalidated \$1 million worth of state printing contracts held by Parkin's firm because he was a commission member.

New bids on the contracts will be opened by Secretary of State Nancy Hall on March 30. Parkin has not said whether he will resign so he can make a new bid.

"All I know about the rumor is that it's a rumor," Faubus said. "It's possible that I would agree to an arrangement like that, but it isn't likely."

"I haven't discussed this with Harry, but I don't think he would be receptive to that sort of thing," Faubus pointed out that more state printing contracts would be up for bids before Parkin's term on the commission expires.

"Also," Faubus said, "such an arrangement would preclude Parkin's selling printing supplies and furniture to the state on contracts which are let by other agencies from time to time."

Turrell Voters Okay Bond Issues

TURRELL (AP)—Turrell voters yesterday approved two bond issues totaling \$35,000 to build a sewer system and extend the city's water system.

The bond issues and a five-mill property tax were offered to the voters in a single package.

The vote showed 82 in favor, and one opposed to the proposal.

The money from the two \$17,500 bond issues will supplement a \$108,000 bond issue previously approved by the City Council. The larger bond issue is being retired by revenue from the water system.

Strawberry Jam—With a Plus!

There's nothing like a new kind of jam for perking up breakfast... for giving a bright touch to a plain everyday sort of pudding... or for layering with vanilla ice cream in a sherbet glass. And Almond Strawberry Jam is easy to make—really easy, when you follow exactly the directions given in this recipe.

STRAWBERRY ALMOND JAM
Almond extract
Sliced blanched almonds
4 1/2 cups prepared fruit (about 2 qts. ripe strawberries)
7 cups (3 lbs.) granulated sugar
1 box Sure-Jell fruit pectin

Place 1/4 teaspoon almond extract and 1 tablespoon sliced almonds in bottom of each scalded glass (or in just one or several of the glasses, if desired.)

Crush completely, one layer at a time, about 2 quarts fully ripe strawberries. Measure 4 1/2 cups into a very large (8qts.) saucepan.

Measure sugar and set aside. Add powdered fruit pectin to fruit in saucepan and mix well. Place over high heat and stir until mixture comes to a hard boil. At once stir in sugar. Bring to a full rolling boil and boil hard 1 minute, stirring constantly. Remove from heat and skim off foam with metal spoon. Then stir and skim by turns for 5 minutes to cool slightly, to prevent floating fruit. Ladle quickly into glasses. Stir to mix with almond extract. Cover jam at once with 1/2 inch hot paraffin. Makes about 11 medium glasses.

4 Cases of Typhoid in Arkansas

LITTLE ROCK (AP) — Four cases of typhoid fever reported in Benton County recently have set the state Health Department on a search for a carrier of the disease in the area.

Dr. William L. Bunch, head of the Division of Communicable Disease Control, said location of the carrier was imperative to stop further incidence of the disease from that source.

Three of the cases were in one family and the other victim was a close friend, Bunch said. The Health Department has tested other family members and is examining other friends in an effort to locate the carrier.

The actual cases of the disease have been brought under control," he added.

A carrier is a person with typhoid germs in his system. He is unaffected, but he can spread the disease to others.

Location of carriers is the principal method, beyond vaccination, said most of the 32 cases reported in Arkansas last year probably sprang from contact with carriers, Bunch said. There are 110 known carriers in Arkansas. Six new ones were identified last year.

Carriers, when located, are placed under surveillance by the Health Department. They are discouraged from handling food and drink for others and from making personal contacts which might spread the disease.

Most carriers are cooperative, Bunch said.

Typhoid is no longer the dread epidemic disease it once was. Last year's 32 cases matched the all-time low set in 1958. By comparison, 1,367 cases were reported in 1925.

The typhoid problem was reduced by wide-spread vaccination in the 1930s. Most schools today require typhoid vaccinations for admittance to the first grade.

Labor Leader Ill

SYDNEY, Australia (AP)—Dr. Herbert V. Evatt, former leader of Australia's labor party, is suffering from high blood pressure and will have to rest for the next 10 months, his wife said today.

Exhibits Are Presented in Florida Case

LITTLE ROCK (AP) — Government attorneys presented more than 60 additional exhibits and agreed with defense lawyers on four points in a hearing today in connection with the \$9.5 million Florida brothers' tax case.

The government will put its first witness on the stand in the trial on March 26.

U.S. District Judge J. Smith Henley told the lawyers to continue negotiating in the case, to work out as many points as possible before the actual testimony begins.

Robert L. Handros of Washington, tax division attorney for the Justice Department, said that if more agreements could be reached, he probably will call only one witness, Eugene Brown, special agent for the Intelligence Division of the Internal Revenue Service.

The government says the Florida brothers, George and Andrew, both of Osceola, owe about \$9.5 million in taxes, interest and penalties.

The suit asks the court to determine the amount owed and to order liquidation of certain Florida holdings so that the government can collect.

One of the disagreements is over figures involved in 25 escrow bank accounts.

Talks Way Into a Scholarship

LITTLE ROCK (AP) — Cynthia Haseloff of Springdale talked her way Tuesday into a \$200 scholarship and a chance eventually to compete for a scholarship worth \$4,000. She was the winner of the American Legion's High School Oratorical Contest.

Second place in the contest went to Chester Johnson of Monticello. Mike Barkley of North Little Rock was third and Brenda Welch of Jonesboro placed fourth.

Miss Haseloff's victory advanced her to the six-state regional tournament.

Finals of the contest were held in the chamber of the Arkansas House before speech classes from high schools in the Little Rock area.

Atty. Gen. Frank Holt was chairman of the contest, which was open to high school seniors.

Gardontown pupils prepare their lessons in cheerless cubicles clearly not designed for comfort. They arise at 7 a.m., daily, but may sleep until 8 on Sunday.

\$435 Million Job Training Bill Passes

WASHINGTON (AP)—Congress today passed a \$435-million job training bill aimed at trimming the ranks of the unemployed and building a work force geared to the age of automation.

The bill, a compromise between House and Senate versions, sailed through the House by voice vote and was sent to the White House. The Senate passed it last week.

The bill authorizes the secretary of labor to make a study of the impact of automation on the economy and come up with an appraisal of the nation's manpower needs for the years ahead.

The Labor Department would then help develop in the states the training courses needed to train the unskilled and to upgrade skills rendered obsolete by automation, so those needs can be met.

The bill provides training allowances equal to the weekly state unemployment compensation, for a maximum of 52 weeks. Those taking on-the-job training would receive a smaller allowance.

A three-year program is authorized.

Snow Is Still Around in the Midwest

EDITOR'S NOTE—The weather is playing tricks with the Midwest and New York areas. It was comparatively mild in New York and severe in the Midwest—just the opposite of last year. The following two stories tell what it was like.

Midwest winter bit

By ROBERT GOLDENSTEIN

CHICAGO (AP) — Those Midwesterners who were delighted when enough snow fell to make a white Christmas miscalculated winter's whim. That snow is still around, only now it forms that bottom layer of a grayish ice pack that covers much of the Midwest.

The winter of 1961-62 will go down as one of the most concentrated mixtures of snow, cold and gloom in the Midwest's record books.

One Chicago television weather commentator remarked the other night in forecasting more snow: "I wish I could see the sun. Not so much for myself, because I have seen it. But I have a 12-year-old son."

It hasn't been that bad, of course, but February set an all-time record for any month in Chicago for the least amount of sunshine—only 21 per cent of the amount possible.

January and March so far — with spring's arrival a week away — haven't been much better.

This winter has been marked by a steady procession of snow storms moving eastward from the Rockies, usually followed by a surge of arctic cold and occasional brief periods of thawing.

This has created a winter-long snow and ice cover that has ranged from a few inches in some sections to three feet in northern Michigan.

It poses the danger of serious floods if mild weather arrives suddenly.

Blizzards in northern areas stranded travelers, closed thousands of rural and city schools, isolated whole towns, blocked main highways, disrupted sports schedules and prevented public gatherings.

The subzero cold created the worst conditions for cattle feeding in a quarter century. Zero temperatures usually hold weight gains of feeding cattle to half the normal rate.

Minneapolis-St. Paul, Minn., has had 77.2 inches of snow so far this winter—only 10.8 inches shy of the record—and 48 days of zero or below compared with the record 50 days in 1935-36 and one prior winter.

Chicago has had 57.1 inches of snow—8.3 inches shy of the record.

Omaha, Neb., has had subnormal temperatures and above normal moisture from November to March.

The northern tier of counties in Missouri report the most snow and coldest December and January temperatures since the mid 1930s.

Some residents of Houghton, Mich., where the snow cover is three feet deep and drifts six feet high, have solved their snow problems the easy way. They have stairs that lead to their second-floor windows.

Iowa reported the snowiest and coldest winter in several decades. Many cities reported record snowfalls.

Because of the severe cold, navigation in the upper Great Lakes probably will not get under way until after the normal April 15 opening date. The upper lakes are 80-95 per cent covered with ice ranging from 18 to 36 inches thick.

Navajo men are not permitted to see or talk to their mothers-in-law. The tribe is the largest in the United States.

Glassware Breaks in This House

INDIANAPOLIS, Ind. (AP) — Glassware has been breaking up all over Mrs. Renate Beck's home without apparent cause—one piece even flying around a corner before shattering.

The police are baffled, and their presence doesn't inhibit the poltergeist—that's a noisy ghost—or whatever force is moving the glassware around. A policeman was struck on the back by a glass

as he was investigating Monday. Mrs. Beck, 32, Vienna-born restaurant operator, said it started Sunday night when a piece of German crystal on top of a bookcase in an upstairs bedroom crashed to the floor about four feet from the bookcase.

Figurines, ash trays, vases, goblets, drinking glasses and other glassware started sailing through the air and smashing, she said.

The Sheikhdom of Yemen was once a part of the ancient kingdom of Sheba.

Thinks U. S. Must Promote Freer Trade

WASHINGTON (AP)—The United States must act fast to promote freer trade or protection-minded Europeans may slam the door on goods from this country, Undersecretary of State George W. Ball told Congress today.

Ball, who handles economic

matters in the international field, is one of the administration's most vocal supporters of broadened trade negotiating powers, especially authority to set up a trading partnership with the European Economic Community.

He told the House Ways and Means Committee Congress should hasten approval of legislation giving the President such authority, to strengthen the hand of those Europeans who believe in freer trade.

He advised Congress that, while there is a body of opinion in the

booming new Common Market that favors low tariffs against the rest of the world, there are also pressures for keeping the Common external tariff high and for protecting agriculture excessively.

If the United States can continue to get its goods into Europe, Ball said, the prospects are dazzling.

Residents of Martinique, the Caribbean island, ran cars on a blend of rum and gasoline during World War II.

Just Can't Hush Up That Phone

LITTLE ROCK (AP)—You can take the phone off the hook to get an uninterrupted nap anymore in some areas of Little Rock.

If you try, a recorded man's voice comes through the receiver telling you the phone is off the hook in tones that could wake the dead.

The recording is a gimmick to augment the beeping tone South-

western Bell has sued for years to get misplaced receivers back where they belong.

The beeping tone had to be fed into the line by an operator. The voice comes automatically about 30 seconds after the receiver is removed. So far, the device has been installed on about 12,000 phones on two exchanges. Other exchanges will get it later this year.

Company officials estimate that 5,000 to 7,000 phones are left off the hook each day — either accidentally or otherwise.
